Spacetime and that Beyond Unnikrishnan Attupurath,2015-01-24 After reaching the realms of Relativity Quantum Mechanics science today is as if bouncing back on the screen created apparently by those theories Can t modern science cross over this screen and reveal further truths veiled in nature to give new directions to mankind which is ever engaged in its relentless pursuit for ultimate contentment and freedom Doesn t it owe the scientists to kindle new lights of awareness by such enquiries in the modern man now so obsessed confused feared and ruined as evident from recent mental and intellectual catastrophes witnessed in this super computer era of ours The deliberations in this text first published in December 1987 are oriented towards a breakthrough in modern scientific thought by analysing the theories hitherto available culminating in relativity and quantum mechanics It rather tries to interpret and extend the ideas inherent in these theories to the entire field of human experiences and bring forth the ultimate essence of existence In this exercise experience recognized as the fundamental basis of any scientific analysis is given pivotal importance The outcome of these deliberations brings forth a different orientation to the relationship between the experienter the individual and the universe he is experiencing It gives a new dimension to his ultimate goal and his assessment with regard to other fellow beings human as well as subhuman around which can influence him to rearrange his interactions with nature so that both the individual as well as nature can evolve simultaneously in harmony An enlarged version of these deliberations that hopefully will help to study them further in detail is under preparation *Journey Beyond: A Non-Dual Approach* Acharya Dr. Kuntimaddi Sadananda,2019-09-05 Everyone is searching for everlasting happiness Yet none can find it by pursuit at the same time none can stop the pursuit This seems to be the tragedy of human life nay the life of every being Every pursuit is limited space wise time wise and object wise Any pursuit that is limited cannot give everlasting happiness Some promise eternal happiness after death if one follows their path Yet no one has returned to claim that they achieved it by following that path One sage declares that truth is a pathless land Vedanta ascertains that the truth is beyond the space time object wise limitations and you are that truth tat tvam asi The journey beyond space and time limitations is the central theme of the discussions in this text *Beyond the Intellect* William John Gabb,1946 *BEYOND THE INTELLECT* Dr. Douglas M.
