## **Beyond Risk:**

**Beyond the Risk Paradigm in Criminal Justice** Chris Trotter, Gill McIvor, Fergus McNeill, 2017-09-16 The risk assessment process the interventions and treatment commenced as a result of it and the theory behind it are central to the administration of criminal justice programmes around the world Most youth and adult corrections departments routinely conduct risk assessments which are then used to inform the nature and intensity of subsequent criminal justice interventions In this unique and important text a team of the world's leading researchers in the field of criminal justice come together to provide a critique of this risk paradigm and to provide practical guidance for professionals students and academics on how to move to a more effective way of working with offenders Divided into three sections the book provides coverage of topics such as The development of risk assessment in criminal justice practice and its advantages and disadvantages The significance of risk factor research in understanding and explaining juvenile delinquency as well as the problems it creates The argument that the risk paradigm fails to accommodate diversity further disadvantaging women ethnic minorities and other marginalized groups The various ways in which real or imagined risk posed by offenders has been regulated under the risk paradigm the powerful influence of media reporting and ways of moving beyond risk to support successful reintegration of offenders Ways forward for criminal justice interventions that do not rely on risk but focus rather on the vitally important aspects of social context relationships and motivation With strong links between theory and practice *Beyond the Risk Paradigm in Criminal Justice* provides a fresh new direction for criminal justice work

**Beyond the Risk Paradigm in Mental Health Policy and Practice** Sonya Stanford, Elaine Sharland, Nina Rovinelli Heller, Joanne Warner, 2017-03-29 Modern society is increasingly preoccupied with fears for the future and the idea of preventing the worst The result is a focus on attempting to calculate the probabilities of adverse events occurring in other words on measuring risk Since the 1990s the idea of risk has come to dominate policy and practice in mental health across the USA Australasia and Europe In this timely new text a group of international experts examines the ways in which the narrow focus on specific kinds of risk such as violence towards others perpetuates the social disadvantages experienced by mental health service users whilst at the same time ignoring the vast array of risks experienced by the service users themselves Benefitting from the authors extensive practice experience the book considers how the dominance of the risk paradigm generates dilemmas for mental health organizations as well as within leadership and direct practice roles and offers practical resolutions to these dilemmas that both satisfy professional ethics and improve the experience of

the service user Combining examination of key theories and concepts with insights from front line practice this latest addition to Palgrave s *Beyond the Risk Paradigm* series provides an important new dimension to debates on mental health provision

[Secularism and the Pursuit of Transcendence, Volume I](#) Stanley E. Porter,Wendy J. Porter,2025-02-20 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent s pursuit of us
