*Deflating Existential Consequence* Jody Azzouni, 2004 If we take mathematical statements to be true must we also believe in the existence of abstract invisible mathematical objects This text claims that the way to escape such a commitment is to accept true statements which are about objects that don't exist in any sense at all **God and Abstract Objects**

William Lane Craig, 2017-09-05 This book is an exploration and defense of the coherence of classical theism's doctrine of divine aseity in the face of the challenge posed by Platonism with respect to abstract objects A synoptic work in analytic philosophy of religion the book engages discussions in philosophy of mathematics philosophy of language metaphysics and metaontology It addresses absolute creationism non-Platonic realism fictionalism neutralism and alternative logics and semantics among other topics The book offers a helpful taxonomy of the wide range of options available to the classical theist for dealing with the challenge of Platonism It probes in detail the diverse views on the reality of abstract objects and their compatibility with classical theism It contains a most thorough discussion rooted in careful exegesis of the biblical and patristic basis of the doctrine of divine aseity Finally it challenges the influential Quinean metaontological theses concerning the way in which we make ontological commitments **American Philosophy: An Encyclopedia** John Lachs, 2008-03-31

The Encyclopedia of American Philosophy provides coverage of the major figures concepts historical periods and traditions in American philosophical thought Containing over 600 entries written by scholars who are experts in the field this Encyclopedia is the first of its kind It is a scholarly reference work that is accessible to the ordinary reader by explaining complex ideas in simple terms and providing ample cross references to facilitate further study The Encyclopedia of American Philosophy contains a thorough analytical index and will serve as a standard comprehensive reference work for universities and colleges Topics covered include Great philosophers Emerson Dewey James Royce Peirce Santayana Subjects Pragmatism Progress the Future Knowledge Democracy Growth Truth Influences on American Philosophy Hegel Aristotle Plato British Enlightenment Reformation Self Assessments Joe Margolis Donald Davidson Susan Haack Peter Hare John McDermott Stanley Cavell Ethics Value Pleasure Happiness Duty Judgment Growth Political Philosophy Declaration of Independence Democracy Freedom Liberalism Community Identity *God Over All* William Lane Craig, 2016-10-13

*God Over All* Divine Aseity and the Challenge of Platonism is a defense of God's aseity and unique status as the Creator of all things apart from Himself in the face of the challenge posed by mathematical Platonism After providing the biblical theological and philosophical basis for the traditional doctrine of divine aseity William Lane Craig explains the challenge presented to that doctrine by the Indispensability Argument for Platonism which postulates the existence of uncreated abstract objects Craig

provides detailed examination of a wide range of responses to that argument both realist and anti realist with a view toward assessing the most promising options for the theist A synoptic work in analytic philosophy of religion this groundbreaking volume engages discussions in philosophy of mathematics philosophy of language metaphysics and metaontology

**Talking About Nothing** Jody Azzouni, 2010-09-30 Ordinary language and scientific language enable us to speak about in a singular way using demonstratives and names what we recognize not to exist fictions the contents of our hallucinations abstract objects and various idealized but nonexistent objects that our scientific theories are often couched in terms of Indeed references to such nonexistent items especially in the case of the application of mathematics to the sciences are indispensable We cannot avoid talking about such things Scientific and ordinary languages thus enable us to say things about Pegasus or about hallucinated objects that are true or false such as Pegasus was believed by the ancient Greeks to be a flying horse or That elf I m now hallucinating over there is wearing blue shoes Standard contemporary metaphysical views and semantic analyses of singular idioms on offer in contemporary philosophy of language have not successfully accommodated these routine practices of saying true and false things about the nonexistent while simultaneously honoring the insight that such things do not exist in any way at all and have no properties That is philosophers often feel driven to claim that such objects do exist or they claim that all our talk isn't genuine truth apt talk but only pretence This book reconfigures metaphysics and the role of metaphysics in semantics in radical ways that allow the accommodation of our ordinary ways of speaking of what does not exist while retaining the absolutely crucial presupposition that such objects exist in no way at all have no properties and so are not the truth makers for the truths and falsities that are about them *Truth in Fiction* John Woods, 2018-02-23 This monograph examines truth in fiction by applying the techniques of a naturalized logic of human cognitive practices The author structures his project around two focal questions What would it take to write a book about truth in literary discourse with reasonable promise of getting it right What would it take to write a book about truth in fiction as true to the facts of lived literary experience as objectivity allows It is argued that the most semantically distinctive feature of the sentences of fiction is that they are unambiguously true and false together It is true that Sherlock Holmes lived at 221B Baker Street and also concurrently false that he did A second distinctive feature of fiction is that the reader at large knows of this inconsistency and isn't in the least cognitively molested by it Why it is asked would this be so What would explain it Two answers are developed According to the no contradiction thesis the semantically tangled sentences of fiction are indeed logically inconsistent but not logically contradictory According to the no bother thesis if the inconsistencies of fiction were contradictory a properly contrived logic for the rational management of inconsistency would explain why readers at large are not thrown off cognitive stride by their embrace of those contradictions As developed here the account of fiction suggests the presence of an underlying three or four valued dialethic logic The author shows this to be a mistaken impression There are only two truth values in his logic of fiction The naturalized logic of *Truth in Fiction* jettisons some of the standard

assumptions and analytical tools of contemporary philosophy chiefly because the neurotypical linguistic and cognitive behaviour of humanity at large is at variance with them Using the resources of a causal response epistemology in tandem with the naturalized logic the theory produced here is data driven empirically sensitive and open to a circumspect collaboration with the empirical sciences of language and cognition **The Harvard Review of Philosophy** ,2005

*Oxford Studies in Metaphysics* Dean W. Zimmerman,Karen Bennett,2008 dedicated to the timely publication of new work in metaphysics broadly construed *The Bulletin of Symbolic Logic* ,2004 *The Review of Metaphysics* ,2006

*Mathematical Reviews* ,2006 **Logic and Knowledge** Carlo Cellucci,Emily Grosholz,Emiliano Ippoliti,2011 The problematic relation between logic and knowledge has given rise to some of the most important works in the history of philosophy from Books VI VII of Plato TM s Republic and Aristotle TM s Prior and Posterior Analytics to Kant TM s Critique of Pure Reason and Mill TM s A System of Logic Ratiocinative and Inductive It provides the title of an important collection of papers by Bertrand Russell *Logic and Knowledge Essays 1901 1950* However it has remained an underdeveloped theme in the last century because logic has been treated as separate from knowledge This book does not hope to make up for a century long absence of discussion Rather its ambition is to call attention to the theme and stimulating renewed reflection upon it The book collects essays of leading figures in the field and it addresses the theme as a topic of current debate or as a historical case study or when appropriate as both Each essay is followed by the comments of a younger discussant in an attempt to transform what might otherwise appear as a monologue into an ongoing dialogue each section begins with an historical essay and ends with an essay by one of the editors *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association,2006 List of members in v 1 *The Philosophical Review* Jacob Gould Schurman,James Edwin Creighton,Frank Thilly,Gustavus Watts Cunningham,2003 [International Philosophical Quarterly](#) ,1961 [Manuscrito](#) ,2008 **Bibliografisch Repertorium Van de Wijsbegeerte** ,2006 *Logique et analyse* ,2009
