The Normative and the Evaluative Richard Rowland,2019-02-07 Many have been attracted to the idea that for something to be good there just have to be reasons to favour it This view has come to be known as the buck passing account of value According to this account for pleasure to be good there need to be reasons for us to desire and pursue it Likewise for liberty and equality to be values there have to be reasons for us to promote and preserve them Extensive discussion has focussed on some of the problems that the buck passing account faces such as the wrong kind of reason problem Less attention however has been paid as to

why we should accept the buck passing account or what the theoretical pay offs and other implications of accepting it are The Normative and the Evaluative provides the first comprehensive motivation and defence of the buck passing account of value Richard Rowland argues that the buck passing account explains several important features of the relationship between reasons and value as well as the relationship between the different varieties of value in a way that its competitors do not He shows that alternatives to the buck passing account are inconsistent with important views in normative ethics uninformative and at odds with the way in which we should see practical and epistemic normativity as related In addition he extends the buck passing account to provide an account of moral properties as well as all other normative and deontic properties and concepts such as fittingness and ought in terms of reasons The Demon Cat and Other Strange Tales Aaron Percifull,1983 Short stories of mystery magic and surprise Cats Who Changed the World Dan Jones,2023-04-18 The cat tastic companion to Dogs Who Changed the World 50 awe inspiring stories of cats who have altered history inspired art and literature reunited lost lovers saved lives or just ruined everything These inspiring humorous heart breaking or just plain weird stories reveal why cats have earned their place as our weirdest most endearing companions and how our fascination with them is age old Along the way you ll meet F licette the first moggy in space Unsinkable Sam a sea faring feline Tama the railway cat who saved a community and Snowball the crime solving cat Cats Who Changed the World celebrates the unique relationship we have with our feline best friends from contemporary times to all throughout history Ancient Legends, Mystic Charms, and Superstitions of Ireland Lady Wilde,1887 **The Mysterious, Magickal Cat** Deanna J.
