Duke,2026-03-08 Before the smartphone tethered us to our inboxes a small blocky piece of plastic worn on the belt fundamentally changed human interaction The pager was the first device that told the world you were important enough to be interrupted at any moment This is the untold technological and sociological history of the beeper Originally designed for doctors facing life or death emergencies in sprawling hospitals the device quickly leaked into the corporate world the drug trade and eventually teenage culture This book unpacks how the pager accidentally invented the culture of constant availability that dominates modern life We explore the clever radio frequency engineering that allowed these devices to work anywhere the bizarre numerical codes users invented to text without keyboards and the psychological shift from leaving the office behind to being on call 24 7 Trace the roots of your digital exhaustion back to the 1990s Discover how a simple plastic box emitting a shrill beep permanently erased the boundary between work and private life

**Emergency Departments, Jails and Streets:** Susan Laffan,2022-05-06 If you are a health care provider or know someone who is the stories they share can sometimes be unbelievable During Susan s forty year career as both a nurse and paramedic the stories about her experiences run the gambit from happy sad funny and sometimes tragic Stories come from both conventional nursing settings to some unconventional such as correctional facilities and nuclear power plants You may think that some of these stories cannot be true yet rest assured they are all real
