Code Mobius:

Mobius' Code Francis Rosenfeld, 2018-03-24 What can you say about a girl who was supposed to die tragically young That her guardian angel got distracted while writing her life code and inadvertently sent her into an infinite loop a quantum uncertainty of sorts packed with bonus features This sort of stuff can create minor issues for the rest of Creation issues which of course need to be ironed out but there is nothing that can't be fixed with good team spirit and a can do attitude especially if you're not unreasonably inflexible about the laws of physics Don't worry about breaking reality you can always make yourself another one or several and improve the quantum efficiency of the electromagnetic spectrum in the process Still in beta testing

Walking the Möbius Strip Johanna Heil, 2016 Walking the Mobius Strip locates Richard Powers's fiction at the crossroads of postmodern and post postmodern aesthetics and argues that this paradigm shift shapes the models of knowledge and understanding that underwrite his work The readings of *Plowing the Dark* *Galatea 2.2* and *The Echo Maker* are inspired by Jacques Lacan's image of cognition as a Mobius strip on which different forms of propositional and non propositional knowledge bleed into and depend upon one

another Drawing on feminist epistemology and psychoanalysis this study highlights Powers s interest in the non propositional aspects of cognition that is in all that escapes the frameworks of scientific empiricism and can only be known through the mediation of fictional narrative It reveals a deep dissatisfaction in the novels with the suggestion that knowledge and understanding must be objective and rational and elucidates Powers s idea that fiction can be a powerful tool for integrating various kinds of knowledge
