Code Of Life

Arthur Schopenhauer

Code Of Life:

Cosmic Code of Life C.A. Ninan,2015-02-12 This book relates DNA and the genetic code to consciousness as the universal principle of life This is done through perception of seven pattern germs from DNA which are girdled into an archetypal model called the tree of life The symbols of the tree model are logically related to the self spirit soul psyche and body How this new approach helps to understand the phenomenon of life in its integrated wholeness and cosmic totality is explained in this book It heralds the dawn of a new science of life which translates the innate mysticism of religions into the language of science It provides novel keys to consciousness and creativity in relation to the transcendental horizon of the human being and the spiritual growth of humanity at large

CHARRAN,2011-01-18 What if you could pick the right home for successful living What if you can pick the perfect partner for love and marriage What if you can know which car you will enjoy the most What if you can know if you are in the right career What if you could tell what tomorrow would be like And so on Would life not be easier if you could know how safe your children are at anytime Would you not worry less if you know your partner will never be unfaithful How great it would be to know that you will win a court case or a contract deal
