

What is **ABSOLUTE TRUTH**?

Absolute truth refers to an objective, universal reality that exists independently of individual perceptions or beliefs.

It posits that certain statements, principles, or facts are eternally and universally valid, unaffected by varying perspectives or interpretations.

In philosophical and theological discourse, the concept of **absolute truth** often contrasts with relativism, asserting the existence of unchanging, timeless truths that transcend cultural, temporal, or individual differences.

While debates persist about the attainability of absolute truth, its pursuit remains a fundamental aspect of epistemological and metaphysical inquiries across various disciplines.
