

ACHIEVEMENT TESTS

An achievement test refers to any procedure used to measure the accumulated knowledge or skills of a student in a specific area of study (Cizek, 2004).

TYPES

- Standardized tests
- Diagnostic tests
- Summative tests
- Language proficiency tests
- Placement tests
- Norm-referenced tests
- Criterion-referenced tests
- Subject achievement tests

EXAMPLES

- **Diagnostic Tests:** This may occur when a math teacher administers an exam at the beginning of the semester to determine students' prior knowledge.
- **Summative Tests:** At the end of every academic year, students in grades 4-12 in California must take the CAT.

Achievement Testing:

Encyclopedia of Applied Psychology Charles Spielberger,2004-09-02 Encompasses topics including aging geropsychology assessment clinical cognitive community counseling educational environmental family industrial organizational health school sports and transportation psychology Each entry provides a clear definition a brief review of the theoretical basis and emphasizes major areas of application

Handbook of Psychological Assessment Gerald Goldstein,Michel Hersen,2000-02-16 The field of psychological assessment has been undergoing rapid change The second edition of this Handbook published in 1990 appeared at the beginning of a decade marked by extensive advances in assessment in essentially all of its specialized areas There are many new tests new applications of established tests and new test systems Major revisions have appeared of established tests notably the Wechsler intelligence scales The time seemed right for a third edition since even over the relatively brief period of ten years many tests described in the second edition have been replaced and are no longer commonly used Furthermore much new research in such areas as neuropsychology cognitive science and psychopathology have made major impacts on how many tests and other assessment procedures are used and interpreted This third edition represents an effort to give the reader an overview of the many new developments in assessment while still maintaining material on basic psychometric concepts in order for it to continue to serve as a comprehensive handbook for the student and professional

Encyclopedia of Special Education Cecil R. Reynolds,Elaine Fletcher-Janzen,2007-01-02 Offers a thoroughly revised comprehensive A to Z compilation of authoritative information on the education of those with special needs

Achievement Testing in U.S. Elementary and Secondary Schools Joan Maureen Baker,2006 The concept and results of achievement testing are the subject of serious conversation for many Americans from educators to legislators However few teachers and parents view such testing as an integral part of teaching and learning Testing standards of key education organizations and opinions of concerned citizens may be fleeting guides The history of testing the process for developing a formal test testing abuse misuse and limitations are not widely known or understood even though we realize that testing is critical and here to stay Achievement Testing explains the complicated concepts in a clear and user friendly way to beginning teachers and students as well as to experienced teachers who are looking for guidance in the ever changing educational landscape

Gearing the Schools to the Improvement of Community Life Philippines. Bureau of Education,1927

Tests and Measurements in Music Jacob Kwalwasser,1927

Psychological Tests Great Britain. Board of Education. Library,1928

A Compendium of Neuropsychological Tests Esther Strauss,Elisabeth M. S. Sherman,Otfried Spreen,2006 This compendium gives an overview of the essential aspects of neuropsychological assessment practice It is also a source of critical reviews of major neuropsychological assessment tools for the use of the practicing clinician

Encyclopedia of Educational Psychology Neil J. Salkind,Kristin Rasmussen,2008-01-17 The field of educational psychology draws from a variety of diverse disciplines including human development across the life span measurement and

statistics learning and motivation and teaching And within these different disciplines many other fields are featured including psychology anthropology education sociology public health school psychology counseling history and philosophy In fact when taught at the college or university level educational psychology is an ambitious course that undertakes the presentation of many different topics all tied together by the theme of how the individual can best function in an educational setting loosely defined as anything from pre school through adult education Educational psychology can be defined as the application of what we know about learning and motivation development and measurement and statistics to educational settings both school and community based

Educational Research Burke Johnson, Larry Christensen, 2008 Educational Research is a highly readable text that provides students with a clear and in depth understanding of the different kinds of research including technology based that are used in education today The text introduces students to the fundamental logic of empirical research and explores the sources of research ideas Detailed descriptions guide students through the design and implementation of actual research studies with a balanced examination of quantitative qualitative and mixed research serving as one of the book's strongest features While quantitative research strategies are covered extensively the text also discusses various qualitative approaches such as ethnography historical methods phenomenology grounded theory and case studies The authors present detailed step by step coverage of the key elements of research including sampling techniques ethical considerations data collection methods measurement judging validity experimental and non experimental methods descriptive and inferential statistics qualitative data analysis and report preparation

Encyclopedia of Curriculum Studies Craig Kridel, 2010-02-16 The Encyclopedia of Curriculum Studies provides a comprehensive introduction to the academic field of curriculum studies for the scholar student teacher and administrator The study of curriculum beginning in the early 20th century served primarily the areas of school administration and teaching and was seen as a method to design and develop programs of study The field subsequently expanded to draw upon disciplines from the arts humanities and social sciences and to examine larger educational forces and their effects upon the individual society and conceptions of knowledge Curriculum studies has now emerged to embrace an expansive and contested conception of academic scholarship while focusing upon a diverse and complex dynamic among educational experiences practices settings actions and theories in relation to personal and institutional needs and interests The Encyclopedia of Curriculum Studies serves to inform and to introduce terms events documents biographies and concepts to assist the reader in understanding aspects of this rapidly changing field of study Representative topics include Origins definitions dimensions and variations on Curriculum Studies Curriculum development and design for schools Curricular purpose implementation and evaluation Contemporary issues e.g standards tests and accountability Curricular dimensions of teaching and teacher education Interdisciplinary perspectives on institutionalized curriculum Informal curricula of homes mass media workplaces organizations and relationships Impact of race class gender health belief appearance place ethnicity language Relationships of curriculum and poverty wealth and

related factors Modes of curriculum inquiry and research Curriculum as cultural studies exploring the formation of identities and possibilities Corporate state church and military influence as curriculum Global and international perspectives on curriculum Curriculum organizations journals and resources Summaries of books and articles on curriculum studies Biographic vignettes of key persons in curriculum studies Relevant photographs **Yearbook** National Education Association of the United States.
