Adams Story Archs English:

Local Government in Early America Brian P. Janiskee, 2010 Local Government in Early America is a concise and thought provoking exploration of the American desire for political participation most notably in the town hall meeting A product of early New England democracy this form of direct local participation remains one of the most celebrated yet feared institutions in our political life Depending on one s political perspective regarding the issue at hand a lively town hall meeting can be the glorious epitome of grassroots activism or the wretched embodiment of reactionary zeal For all of the media attention devoted to the conservative revolt against health care reform at town hall meetings across the country the political right is late to the game on local activism From resolutions opposed to the Patriot Act or the declaration of nuclear free zones in cities the political left has used the rhetorical power of the local political pulpit to great effect for many years All of this is possible because of the manner in which local governments were constructed during the colonial period Brian P Janiskee details the origins of our local system by examining key characteristics of local colonial political life including what Founders like John Adams and Thomas Jefferson had to say about the role of villages towns and cities in our complex system of government Through this timely analysis of our political heritage Janiskee may cause observers to reevaluate the phrase all politics is local Indeed it may be the case that all local politics is national Book jacket The First Love Story Bruce Feiler, 2018-03-20 An exploration of the way Adam and Eve introduced the idea of love into the world and how they continue to shape our deepest feelings about relationships family and togetherness Since antiquity Adam and Eve have stood at the center of every conversation about men and women Yet instead of celebrating them history has blamed them for bringing sin deceit and death into the world In this fresh retelling of their story Bruce Feiler travels from the Garden of Eden in Iraq to the Sistine Chapel in Rome discovering how Adam and Eve should be hailed as exemplars of a long term healthy resilient relationship At a time of discord and fear over the strength of our social fabric Feiler shows how history s first couple can again be role models for unity forgiveness and love Regents bulletin ,1890 Apocalyptic Ecologies Shannon Gayk, 2024-12-06 A meditative reflection on what medieval disaster writing can teach us about how to respond to the climate emergency When a series of ecological disasters swept medieval England writers turned to religious storytelling for precedents Their depictions of biblical floods fires storms droughts and plagues reveal an unsettled relationship to the natural world at once unchanging and bafflingly unpredictable In Apocalyptic Ecologies Shannon Gayk traces representations of environmental calamities through medieval plays sermons and poetry such as Cleanness and Piers Plowman In premodern disaster writing she recovers a vision of environmental flourishing that could inspire new forms of ecological care today a truly apocalyptic sensibility capable of seeing in every ending every emergency a new beginning waiting to emerge
