## At Long Last:

*Hot 'n Cole* Cole Porter, David Armstrong, Mark Waldrop, Bruce Coyle, 2000 The spotlight is on the timelessness of Cole Porter classics presented here with wonderfully fresh arrangements and a contemporary twist Over fifty of his songs are woven into an entertainment that feels as much like a book musical as a revue By turns wry irreverent romantic touching and hilarious this is a post modern Cole Porter evening unlike any other

*The Syntax of Information-Structural Agreement* Johannes Mursell, 2021-09-15 In this research monograph Johannes Mursell discusses the syntactic impact of information structural features on agreement So far the syntactic contribution of this type of feature has mostly been reduced to movement of topics or foci clause initial position Here the author looks at a different phenomenon syntactic agreement and how this process can be dependent on information structural properties Based partly on original fieldwork from a typologically diverse set of languages including Tagalog Swahili and Lavukaleve it is argued that for most areas for which information structural features have been discussed it is possible to find cases where these features influence phi feature agreement The analysis is then extended to cases of Association with Focus which does not involve phi features but can still be accounted for with agreement of information structural features The book achieves two main goals first it provides a uniform analysis for different constructions in unrelated languages Second it also gives a new argument that information structural features should be treated as genuine syntactic features
