**At the Lenin Shipyard** Stan Persky,1981      **Shipbuilding and Ship Repair Workers around the World** Raquel Varela,Hugh Murphy,Marcel Linden,2025-10-01 Maritime trade is the backbone of the world s economy Around ninety percent of all goods are transported by ship and since World War II shipbuilding has undergone major changes in response to new commercial pressures and opportunities Early British dominance for example was later undermined in the 1950s by competition from the Japanese who have since been overtaken by South Korea and most recently China The case studies in this volume trace these and other important developments in the shipbuilding and ship repair industries as well as workers responses to these historic transformations      **Anarchy** ,1917      *Books Are Weapons* Siobahn Doucette,2018-03-07 Much attention has been given to the role of intellectual dissidents labor and religion in the historic overthrow of communism in Poland during the 1980s *Books Are Weapons* presents the first English language study of that which connected them the press Siobhan Doucette provides a comprehensive examination of the Polish opposition s independent often underground press and its crucial role in the events leading to the historic Round Table and popular elections of 1989 While other studies have emphasized the role that the Solidarity movement played in bringing about civil society in 1980 1981 Doucette instead argues that the independent press was the essential binding element in the establishment of a true civil society during the mid to late 1980s Based on a thorough investigation of underground publications and interviews with important activists of the period from 1976 to 1989 Doucette shows how the independent press rooted in the long Polish tradition of well organized resistance to foreign occupation reshaped this tradition to embrace nonviolent civil resistance while creating a network that evolved from a small group of dissidents into a broad opposition movement with cross national ties and millions of sympathizers It was the galvanizing force in the resistance to communism and the rebuilding of Poland s democratic society
