At War Within:

The English People at War in the Age of Henry VIII Steven Gunn, 2017-12-29 Henry VIII fought many wars against the French and Scots against rebels in England and the Gaelic lords of Ireland even against his traditional allies in the Low Countries But how much did these wars really affect his subjects And what role did Henry s reign play in the long term transformation of England s military capabilities The English People at War in the Age of Henry VIII searches for the answers to these questions in parish and borough account books wills and memoirs buildings and paintings letters from Henry s captains and the notes readers wrote in their printed history books It looks back from Henry s reign to that of his grandfather Edward IV who in 1475 invaded France in the afterglow of the Hundred Years War and forwards to that of Henry s daughter Elizabeth who was trying by the 1570s to shape a trained militia and a powerful navy to defend England in a Europe increasingly polarised by religion War it shows marked Henry s England at every turn in the news and prophecies people discussed in the money towns and villages spent on armour guns fortifications and warning beacons in the way noblemen used their power War disturbed economic life made men buy weapons and learn how to use them and shaped people s attitudes to the king and to national history War mobilised a high proportion of the English population and conditioned their relationships with the French and Scots the Welsh and the Irish War should be recognised as one of the defining features of life in the England of Henry VIII

War Within Ivana Maček, 2000

The Erotics of War in German Romanticism Patricia Anne Simpson, 2006 In *The Erotics of War in German Romanticism* Patricia Anne Simpson explores the ways early nineteenth century German philosophers poets and artists represent war and erotic desire The author argues that gender is connected to a larger debate about the construction of the self in relation to a community at a time that this definition is under revision She analyzes the culture of war as it shapes the bonds of fraternal familial and eventually national identity Simpson defines the erotics of war as discursive attempts to assert the priority of ethical identity and citizenship over individualized desire The seemingly ancillary problem of female desire emerges not as a marginal issue but as the focal point of a debate about identity

The War in South Africa Arthur Conan Doyle, 1902 Bogen er en beskrivelse af Boerkrigen 1889 1902 i Sydafrika mellem Boerne og de engelske kolonistyre Udover rsager og udvikling beskrives krigens grusomme sider hvor begge sider optr dte med lige stor brutalitet

Games and War in Early Modern English Literature Holly Faith Nelson, James William Daems, 2025-10-01 This pioneering collection of nine original essays carves out a new conceptual path in the field by theorizing the ways in which the language of games and warfare inform and illuminate each other in the early modern cultural imagination They consider how warfare and games are mapped onto each other in aesthetically and ideologically significant ways in the early modern plays poetry or prose of William Shakespeare Thomas Morton John Milton Margaret Cavendish Aphra Behn and Jonathan Swift among others Contributors interpret the terms war games or games of war broadly freeing them to uncover the more complex and abstract interplay of war and games in the early modern mind
