Does God Exist Hans Kung, 2013-01-02 Does God exist The question implies another Who is God This book is meant to give an answer to both questions and to give reasons for this answer Does God exist Yes or no Many are at a loss between belief and unbelief they are undecided skeptical They are doubtful about their belief but they are also doubtful about their doubting There are still others who are proud of their doubting Yet there remains a longing for certainty Certainty Whether Christians or Jews believers in God or atheists the discussion today runs right across old denominations and new ideologies but the longing for certainty is unquenched Does God exist We are putting all our cards on the table here The answer will be Yes God exists As human beings in the twentieth century we certainly can reasonably believe in God even more so in the Christian God and perhaps even more easily today than a few decades or centuries ago For after so many crises it is surprising how much has been clarified and how many difficulties in regard to belief in God have melted into the Light that no darkness has overcome

Does God Exist? J. P. Moreland, Kai Nielsen, 2009-12-02 Is there a God What is the evidence for belief in such a being What is God like Or is God a figment of human inspiration How do we know that such a being might not exist Should belief or disbelief in God's existence make a difference in our opinions and moral choices in the way we see ourselves and relate to those around us These are fundamental questions and their answers have shaped individual lives races and nations throughout history On March 24 1988 at the University of Mississippi J P Moreland a leading Christian philosopher and ethicist and Kai Nielsen one of today's best known atheist philosophers went head to head over these questions Does God Exist records their entire lively debate and includes questions from the audience the debaters answers and the responses of four recognized scholars William Lane Craig Antony Flew Dallas Willard and Keith Parsons Noted author and philosopher Peter Kreeft has written an introduction concluding chapter and appendix all designed to help readers decide for themselves whether God is fact or

fantasy **Does God Exist?** JohnPierre LeCedre,2021-06-21 Does God exist How do I know Let me ask you does darkness exist Does ignorance exist Does evil exist I am sure everyone would agree that darkness ignorance and evil exist My answer is darkness ignorance and evil don t exist on their own darkness exists because of the lack of light Ignorance exists because of the lack of knowledge And evil exists because of the lack of God A logical approach to the question of God s existence Not religious but scientific and logical proof written by an engineer not a priest God and religions often have nothing to do with each other Whether you are an atheist a believer or someone between I was a doubtful believer I was also a doubtful atheist I was always doubtful and conflicted spiritually Then I found God in such an unusual way No nothing to do with religions In fact I am not religious at all and I have no religious affiliation and I am still not religious Read the PROOF supported only by logic and natural laws I am not a preacher I am an engineer I am inclined to digest things analytically and logically I concluded that God must exist 1000% All my doubts disappeared I want to share this proof with other people who are drowning in their spiritual doubts I want to share this proof with every human soul searching for the truth Often when people are asked Does God exist The answer would be mostly yes no maybe without being able to give a logical explanation They might try to refer to the Bible or come out with some unsatisfying explanation Faith or the lack of faith is not proof Confused You don t know what to believe or not to believe Too busy making a living and wondering if living has any purpose besides existing You re not alone Whether you are an atheist a believer or someone between you might not fully believe in God nor can you simply deny him once for all You feel drowning in an ocean of doubt and purposeless life neither faith alone nor the lack of it could resolve If you are not that sure then this is a must read book for you Read the Proof It s hard to believe in God because everything in our human minds has a beginning and an end Therefore it s impossible to believe in any eternal thing Thus we think God must not exist right But God is not a thing natural laws can be applied to him If he s a thing then he s not God We cannot understand God if we can then he s not God God cannot be defined to define God is to limit him He s the cause of all causes without being caused From him all things came into existence A thing cannot create itself when it does not exist While it s impossible to understand God I wrote this book to share my experience with every yearning soul in search to know God He s absolute and eternal He has no equals no partners and no comparables He s God The one God the only God The Almighty God [Does God Exist? Does God Exist? Hans Küng,1980 The essence of the argument is that it is still possible for someone who accepts modern progress and knowledge to decide to trust in God with a faith which although it transcends reason does not deny it The roots of this decision lie in the realities of life and for the Christian the decisive encounter is with Jesus in whose person and acts God is met But belief in God has also to reckon very seriously with the attacks on it made by many masters of modern thought There are in these pages studies of some forty major figures in intellectual history since the seventeenth century and there are fearless responses to recent challenges arising from Western or Eastern experience The author is clear that although belief in God can be verified by the modern person who is a Christian many medieval beliefs cannot be sustained Jacket

Does God Exist It is estimated that there are over 4 300 religions in the world Each claims to be correct Many people believe none are correct And while Christianity is the number one in terms of the number of members with 2 2 billion believers neither size nor the fervour of a religion s membership nor it s age guarantee anything most people believed the world was flat until recent centuries Almost all religions have no proof Many have some kind of bible Some even have archaeological evidence of past people or events contained in their writings But that alone does not prove their supernatural or divine claims This interdisciplinary book by necessity links theology and science In this book the author presents newly discovered inviolable circumstantial evidence which is arguably so strong this exceeds the standards required by most courts worldwide in convicting suspects based on DNA matching alone Also presented are extremely well documented and scientifically verified modern day events which are worthy of being called nothing else but miracles a term which is frequently over used Contents Newly discovered secrets of the crucifixion eclipse scientific proof of the crucifixion earthquake ancient well documented predictions fulfilled by Christ s crucifixion scientifically medically documented medical miracles and apparitions scientific proof of heaven purgatory and hell and more

Does God Exist? Donald Ackermann,2014-07-09 The contentious debate between believers and non believers as to whether or not God really exists has raged ever since man first gazed into the heavens and pondered the universe But recent discoveries coupled with what was already known are drawing the two opposing camps closer This commentary strives to demonstrate how this is happening and why the religious and scientific communities are gradually finding so much more that they can agree upon Both sides have given considerable ground Some scientists and theologians now acknowledge each others previously inflexible positions on many issues how old the earth is if other life similar to ours exists the nature of things that strongly suggest Intelligent Design It is particularly noteworthy how many prominent physicists cosmologists and astronomers now accept the possible existence of a God Supreme Being or Universal Power It is seen that once the dogmatism on both sides is

removed the compatibility of religion and science emerges Keep in mind the author makes no claim to being a scientist or theologian or that this commentary is intended to be exhaustive But it is believed few have ever assembled such a concentrated array of scientific and religious facts and opinions with accompanying analysis which when brought together form a more composite and truer picture of the truth And isnt that what everyone is after the truth If you find this subject intriguing as most do and you are looking for some answers you may find them here Come journey with the author into the uncertain the unknown the profound See where it takes you You will not be disappointed
