Interdependent Yet Intolerant Robert Mandel,2021-07-27 People everywhere are more dependent than ever on foreign migrants products and ideas and more xenophobic Intolerance and hate based violence is on the rise in countries from Hungary to South Africa threatening global security With Interdependent Yet Intolerant Robert Mandel explains why we live in an unexpectedly and increasingly hateful world why existing policies have done little to help and what needs to be done Through an in depth analysis of case studies from twelve diverse countries that have experienced violence between native citizens and foreign migrants Mandel finds that the interdependence of the current liberal international order does not breed mutual understanding between groups through increased contact but rather under specific conditions stimulates boomerang effects in the exact opposite direction And the very policy measures intended to decrease violence from heightened border enforcement intended to minimize instability to intergovernmental payoffs to other countries to keep foreigners away as in the EU only inflame intolerance and promote global insecurity Providing practical policy recommendations for managing identity based violence in an age of mass migration and globalization Interdependent Yet Intolerant calls on societies around the world to rethink their predominant notions of national identity and control *Conceptual Engineering and Conceptual Ethics* Alexis Burgess,Herman Cappelen,David Plunkett,2020 Conceptual engineering is a newly flourishing branch of philosophy which investigates problems with our concepts and considers how they might be ameliorated truth for instance is susceptible to paradox and it's not clear what race stands for This is the first collective exploration of possibilities and problems of conceptual engineering Ethical-social-legal Annotated Bibliography of English Language Studies on Abortion Stephen Wojcichowsky,Toronto Institute of Public Communications,1973 **Communication Yearbook 23** Michael Roloff,2012-03-22 Communication Yearbook 23 originally published in 2000 includes discussions about the relationship between communication and the emotional processes The authors do not confine the reviews to research conducted in a single context but instead draw upon scholarship that informs about shame and guilt in intimate family organizational and

public discourse Also explored is literature on compliance resistance and the emotional reactions that accompany resistance Other reviews address issues involving communication about sexual harassment in the workplace cross cultural influences on management styles and the mass media s role in encouraging change in body shape Offering a tremendous variety of in depth analyses of communication scholarship in a broad array of research areas this is a vital sourcebook for researchers teachers and students alike
