An Aztec Memory:

Memory, Myth, and Time in Mexico Enrique Florescano, Kathryn R. Bork, 2014-03-19 In *Memory Myth and Time in Mexico* noted Mexican scholar Enrique Florescano's *Memoria mexicana* becomes available for the first time in English. A collection of essays tracing the many memories of the past created by different individuals and groups in Mexico, the book addresses the problem of memory and changing ideas of time in the way Mexicans conceive of their history. Original in perspective and broad in scope, ranging from the Aztec concept of the world and history to the ideas of independence, this book should appeal to a wide readership. *An Aztec Memory* Charles Fishman, 1996 Winner of the 1996 Anabiosis Press Chapbook Contest

Memory Traces Laura M. Amrhein, Cynthia Kristan-Graham, 2015-10-28 In *Memory Traces*, art historians and archaeologists come together to examine the nature of sacred space in Mesoamerica. Through five well-known and important centers of political power and artistic invention in Mesoamerica—Tetitla at Teotihuacan, Tula Grande, the Mound of the Building Columns at El Tajín, the House of the Phalli at Chichén Itz, and Tonina—contributors explore the process of recognizing and defining sacred space, how sacred spaces were viewed and used both physically and symbolically, and what theoretical approaches are most useful for art historians and archaeologists seeking to understand these places. *Memory Traces* acknowledges that the creation, use, abandonment, and reuse of sacred space has a strongly recursive relation to collective memory and meanings linked to the places in question and reconciles issues of continuity and discontinuity of memory in ancient Mesoamerican sacred spaces. It will be of interest to students and scholars of Mesoamerican studies and material culture, art historians, architectural historians, and cultural anthropologists. *Women of the Aztec Empire* Layla Gupta, In the heart of the Aztec Empire, daughters were born into a world defined by duty, belief, and identity. From the moment of birth, girls were wrapped in rituals and traditions that reflected the empire's values and expectations for womanhood. Unlike the rigid gender roles often portrayed in modern understandings of ancient civilizations, Aztec society allowed for a range of female experiences, especially depending on class, family status, and religious ties. Still, certain shared elements united the lives of Aztec girls as they grew into women of the empire. A girl's life began with ceremony. At birth, a midwife would chant prayers over the infant, asking the gods to guide her in her destined role as a homemaker, mother, or possibly priestess. Symbolic objects like weaving tools were placed beside her, marking her future contributions to the household and community. Unlike boys, who were given miniature shields and arrows to represent warfare, girls were prepared for battles of a different kind: those of domestic responsibility and cultural preservation. Education for girls was both practical and spiritual. While boys were trained for war or priesthood, girls often learned domestic skills at home from mothers and elder women. However, this did not mean their education was informal or limited. In fact, daughters of commoners and nobles alike could attend *tepochochcalli* community schools where they were instructed in ethics, religion, and the arts of weaving and food preparation. Noble girls had access to even more advanced teachings at the *calmecac*, the elite school where they could be

groomed for religious roles or political marriages *The Aztecs* Lucien Biart, John Leslie Garner, 1887 Tenochtitlan: The Last City of the Aztecs Blackbird House, 2026-01-24 Tenochtitlan was not a lost jungle city It was one of the largest and most complex urban centers on Earth Built on an island in Lake Texcoco Tenochtitlan stood at the heart of the Aztec Empire a city of causeways canals markets temples and engineered landscapes that supported hundreds of thousands of inhabitants In the early sixteenth century it rivaled the greatest cities of Europe in size organization and political power Tenochtitlan The Last City of the Aztecs tells the full story of this extraordinary capital from its origins in Mexica migration traditions to its rise as an imperial center from the rhythms of daily life to the forces that led to its collapse Rather than focusing only on conquest this book examines how the city functioned as a living system its economy social hierarchy urban planning religion and political institutions Drawing on archaeology Indigenous Nahuatl sources early colonial accounts and modern scholarship the book traces how Tenochtitlan was built governed and ultimately dismantled It explains how disease alliance politics and structural pressures weakened the city long before its physical destruction and how its foundations still lie beneath modern Mexico City Written for curious general readers rather than specialists this volume offers a clear balanced and evidence based city biography It presents Tenochtitlan not as legend or symbol but as a real imperial capital whose influence continues to shape the modern world Part of the City Biographies series this book explores how cities rise function and fall and why their stories still matter

Theatres of Human Sacrifice Mark Pizzato, 2004-11-18 Contemporary debates about mass media violence tend to ignore the long history of staged violence in the theatres and rituals of many cultures In *Theatres of Human Sacrifice* Mark Pizzato relates the appeal and possible effects of screen violence today in sports movies and television news to specific sacrificial rites and performance conventions in ancient Greek Aztec and Roman culture Using the psychoanalytic theories of Lacan Kristeva and Žižek as well as the theatrical theories of Artaud and Brecht the book offers insights into the ritual lures and effects of current mass media spectatorship especially regarding the pleasures purposes and risks of violent display Updating Aristotle's notion of catharsis Pizzato identifies a sacrificial imperative within the human mind structured by various patriarchal cultures and manifested in distinctive rites and dramas with both positive and negative potential effects on their audiences

Orozco painted the twenty four panel mural cycle entitled The Epic of American Civilization in Dartmouth College s Baker Berry Library An artifact of Orozco s migration from Mexico to the United States the Epic represents a turning point in his career standing as the only fresco in which he explores both US American and Mexican narratives of national history progress and identity While his title invokes the heroic epic form the mural indicts history as complicit in colonial violence It questions the claims of Manifest Destiny in the United States and the Mexican desire to mend the wounds of conquest in pursuit of a postcolonial national project In Orozco s American Epic Mary K Coffey places Orozco in the context of his contemporaries such as Diego Rivera and David Alfaro Siqueiros and demonstrates the Epic s power as a melancholic critique of official indigenism industrial progress and Marxist messianism In the process Coffey finds within Orozco s work a call for justice that resonates with contemporary debates about race immigration borders and nationality [PC Mag](#) ,1985-11-12 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology **Memories of the War** Isaac Ruth Sherwood,1923 [The Aztecs](#), tr. by J.L.
