Precision Community Health Bechara Choucair, 2020-05-28 When Bechara Choucair was a young doctor he learned an important lesson treating a

patient for hypothermia does little good if she has to spend the next night out in the freezing cold As health commissioner of Chicago he was determined to address the societal causes of disease and focus the city's resources on its most vulnerable populations That targeted approach has led to dramatic successes such as lowering rates of smoking teen pregnancy breast cancer mortalities and other serious ills In Precision Community Health Choucair shows how those successes can be replicated and expanded around the country The key is to use advanced technologies to identify which populations are most at risk for specific health threats and avert crises before they begin Big data makes precision community health possible But in our increasingly complex world we also need new strategies for developing effective coalitions media campaigns and policies This book showcases four innovations that move public health departments away from simply dispensing medical care and toward supporting communities to achieve true well being The approach Choucair pioneered in Chicago requires broadening our thinking about what constitutes public health It is not simply about access to a doctor but access to decent housing jobs parks food and social support It also means acknowledging that a one size fits all strategy may exacerbate inequities By focusing on those most in need we create an agenda that is simultaneously more impactful and more achievable The result is a wholesale change in the way public health is practiced and in the well being of all our communities
