ABSTRACT

21st century education is undergoing a revolutionary change that gives birth to positive psychology in the process of education. That Flourished the classroom engagement and result in remarkable role in academic field. Policy makers and many educators worldwide have noticed the burgeoning field of experiential learning in the 21st century. Learning in real life situations, hone creativity, communication and collaboration skills among students, which leads to better understanding of concepts. In particularly mathematics subject learning theory and practice together, is more beneficial. In India NPE 2020 emphasized on “how to learn” or we can say skills-based learning and gave importance to “learning by doing”. Experiential learning in arithmetic and geometry at 5th grade was studied to see if experiential learning could positively help students’ participation to increase their maths learning outcomes. A series of pedagogical experiments with 20 fifth-grade students on topics related to arithmetic and geometry was conducted to confirm research goals. Students were required to develop attitude to solve problems respective criteria of 5th grade. Only group method was subjected to a pre-test and a post- test design. Teacher made achievement test was used as a tool for data collection. The results were found that experiential learning activities positively influence the students motivation and students achievement of the class.

“For the things we have to learn before we do them, we learn by doing them” -Aristotle

Past decades emphasized on the information gathering and to imbibed students mind with Facts, information and text book Content which will promote them to next grade. But 21st century focus on skills which will help children succeed in the rapidly changing world. Now children learn diversities of surrounding and want to learn about differences respect to those.

“Experiential learning is a philosophy and methodology in which educators purposefully engaged with students in direct experience and focused reflection in order to increase

[et al.], 2024-03-31 It is an honor and privilege to welcome you to the 7th South East Asia Design Research International Conference The conference s theme Improving Professionalism and Reflective Thinking through Design Research invites us to reflect on the current educational challenges e g globalization and industrial revolution 4 0 and transform them into opportunities through design research It

acknowledges the need to develop our professionalism so that we can proactively contribute to the advancement of educational science and praxis. It challenges us to rethinking the design research as a method to make learning and teaching innovation possible but also as a paradigm in building our capacity for innovation. Yogyakarta is an artsy and historical city which serves as a fitting cultural, social, political, and economic milieu for the conference. The tagline "Jogja Istimewa" itself shows how the city has special values to be explored and experienced, and we encourage you to absorb the city's abundance. The Kraton, the cultural and political heart of the city, Fort Vredeburg museum, Malioboro road, Dipowisata urban tourism, to name a few. The perfect ambience of Yogyakarta will provide us with a convenient space to interact and exchange ideas with colleagues as a means of professional learning. Our goal is for you to get new ideas, tools, and materials from the conference which will contribute to your professional development. The variety of sessions, workshops, and social events will give you opportunities to connect with friends and colleagues to expand your networks. We are excited about the keynote and invited speakers. We believe they will share challenging and innovative ideas about education. This conference is the result of the hard work, support, and dedication of a number of parties. We wish to thank all the committee members who together make the conference possible. The committee has been working throughout the year to propose sessions, review a record number of submissions, answer queries, arrange the schedule, and respond to last-minute requests. We also want to thank Sanata Dharma University, Ministry of Research, Technology, and Higher Education of Indonesia, Sogang University, and SEAMEO QITEP in Mathematics for their contribution to funding the conference.
