Pumpkin Spice & Everything Nice Katie Cicutelli-Kuc, 2024-08-06 Gilmore Girls fans Pour yourselves a hot cup of tea and get ready to fall in love with this cozy YA romance that will have you dreaming of autumn all year long Fall is a big deal in Briar Glen a quaint and charming village in New England That s when tourists from all over the country descend upon this picturesque town to see the babbling brooks and colorful leaves while sipping hot chocolate or pumpkin spice lattes But sixteen year old Lucy Kane hates the uber popular PSL She finds it overrated especially when you consider the fact that there isn t even pumpkin in it which is bad because she works at Cup o Jo the local coffee shop her mom owns Business at Cup o Jo hasn t been great in the off season but that s okay because it always picks up during the fall Until Java Junction a multinational coffee chain opens across the street and makes things harder for the small shop And to make matters worse it turns out Jack Harper the new kid in school and Lucy s secret crush is the son of the owner Suddenly fall doesn t seem like it ll be all it s cracked up to be Will Lucy find a way to save her mom s coffee shop *Perfumes, Cosmetics and Soaps* W.A. Poucher, 2012-12-06 During the past decade there have been many changes in the perfumery industry which are not so much due to the discovery and application of new raw materials but rather to the astronomical increase in the cost of labour required to produce them This is reflected more particularly in the flower industry where the cost of collecting the blossoms delivered to the factories has gone up year after year so much so that most flowers with the possible exception of Mimosa have reached a cost price which has compelled the perfumer to either reduce his purchases of absolutes and concretes or alternatively to substitute them from a cheaper source or even to discontinue their use This development raises an important and almost insoluble problem for the perfumer who is faced with the necessity of trying to keep unchanged the bouquet of his fragrances

and moreover to ensure no loss of strength and diffusiveness Of course this problem applies more especially to the adjustment of formulae for established perfumes because in every new creation the present high cost of raw materials receives imperative consideration before the formula is approved
