Sheldon,2013-02-06 No detailed description available for Delivering Lifelong Continuing Professional Education Across Space and Time *Core Java 11 Advanced, Second Edition* Cay Horstmann,2018 7 Hours of Video Instruction Core Java Volumes I and II have long been recognized as the leading no nonsense tutorial and reference for experienced programmers who want to write robust Java code for real world applications In Core Java Advanced LiveLessons Cay S Horstmann takes that same approach to introducing experienced programmers to Java with detailed demonstration This training pairs with the tenth edition of Core Java Volume II Advanced Features which has been fully updated to cover Java SE 8 In these video LiveLessons you will learn about advanced Java language features along with the most useful parts of the standard library In order to take full advantage of the lessons be sure to download the companion source code Related Content Core Java LiveLessons Complete Video Course Core Java Volume I Fundamentals Tenth Edition Core Java Volume II Advanced Features Tenth Edition Lessons 1 and 2 cover lambda expressions an important addition to Java 8 and the streams library which makes extensive use of lambda expressions With streams you can efficiently analyze large data sets simply by telling what you want to achieve Leave it to the streams library to figure out the how Lesson 3 covers bread and butter issues related to input and output text processing file handling regular expressions and connecting to web servers Lesson 4 covers concurrency the most important lesson within this LiveLessons training Nowadays processors have multiple cores and we need to keep them busy But it is challenging to write programs that safely run tasks in parallel This lesson gives you a set of strategies to meet that challenge The next two lessons are all about building tools Lesson 5 introduces the annotation mechanism You will see how tools use annotations for checking program correctness generating code interfacing with databases and web services Another way of making your programs smarter is by allowing your users to provide extensions in Java or a scripting language Lesson 6 shows you how to run the Java compiler or a language interpreter in your programs In Lesson 7 you will learn how to write programs for users anywhere in the world with their preferences for formatting and messages in their language Lesson 8 covers the new java time package that handles complexities like leap years time zones and daylight savings time The last two lessons Lessons 9 and 10 show you how to interface with **Visual J++ 1.1 Unleashed** Bryan Morgan,1997 The reader will gain a complete understanding of the functionality to be gained by using

Visual J He will also learn to create Java applications using Visual J as his tool The CD ROM contains source code and example programs from the book plus Microsoft Visual J 1 1 Trial Edition   *Using Event-B for Critical Device Software Systems* Neeraj Kumar Singh,2013-06-19 Defining a new development life cycle methodology together with a set of associated techniques and tools to develop highly critical systems using formal techniques this book adopts a rigorous safety assessment approach explored via several layers from requirements analysis to automatic source code generation This is assessed and evaluated via a standard case study the cardiac pacemaker Additionally a formalisation of an Electrocardiogram ECG is used to identify anomalies in order to improve existing medical protocols This allows the key issue that formal methods are not currently integrated into established critical systems development processes to be discussed in a highly effective and informative way Using Event B for Critical Device Software Systems serves as a valuable resource for researchers and students of formal methods The assessment of critical systems development is applicable to all industries but engineers and physicians from the health domain will find the cardiac pacemaker case study of particular value

ECOOP '99 - Object-Oriented Programming Rachid Guerraoui,2003-07-31 My tailor is Object Oriented Most software systems that have been built cently are claimed to be Object Oriented Even older software systems that are still in commercial use have been upgraded with some OO avors The range of areas where OO can be viewed as a must have feature seems to be as large as the number of elds in computer science If we stick to one of the original views of OO that is to create cost e ective software solutions through modeling ph ical abstractions the application of OO to any eld of computer science does indeed make sense There are OO programming languages OO operating s tems OO databases OO speci cations OO methodologies etc So what does a conference on Object Oriented Programming really mean I honestly don t know What I do know is that since its creation in 1987 ECOOP has been attracting a large number of contributions and ECOOP conferences have ended up with high quality technical programs featuring interesting mixtures of theory and practice Among the 183 initial submissions to ECOOP 99 20 papers were selected for inclusion in the technical program of the conference Every paper was reviewed by three to ve referees The selection of papers was carried out during a t day program committee meeting at the Swiss Federal Institute of Technology in Lausanne Papers were judged according to their originality presentation qu ity and relevance to the conference topics   *Introduction to Java Programming* Y.
