## **Creating Cyber Libraries:**

Creating Cyber Libraries Kathleen W. Craver, 2002-05-30 As prices of traditional library materials increase and space to house them shrinks savvy school library media specialists are creating cyber libraries or school libraries on the Internet These libraries offer students and their parents 24 hour access and are invaluable for providing up to date information in a way traditional materials cannot This guide outlines the steps library media specialists can take to create a cyber library provide content and policies for use and maintain it for maximum efficiency Craver justifies the need for cyber libraries in the 21st century and how they can help librarians to meet the standards in Information Power 1998 She explains the different types of cyber libraries available along with their advantages and disadvantages She discusses how to construct them using portals or by acquiring fee based cyber libraries and what policies should be in place to protect both the school and its students Also included are instructions for establishing remote access to subscription databases creating cyber reading rooms and providing instructional services to student users Once a cyber library is created it must be maintained and evaluated to keep it useful and current and this book provides guidelines to do so Finally there is a chapter on promoting the cyber library so the school community is aware of its features and participates in its growth process No school library should be without this volume

School Libraries in a Time of Change Kathleen W. Craver, 2019-08-01 By becoming practical futurists school librarians can help their libraries not only to survive sweeping changes in education but to thrive This book shows how to spot technological trends and use them to your library s advantage During this time of rapid modernization of technology and educational reform this book is a must read for school librarians tasked with ensuring their libraries meet evolving standards This title provides the research and organizational techniques and skills they need to gain seats at the table of the three power committees technology curricula and strategic planning School librarians need to collect and publicize national and local school based evidence that shows the positive correlations between school librarians and student achievement Craver notes correlative sources and provides ideas to employ them to ensure that school librarians remain indispensable In addition acquiring technological skills and becoming expert at their application are paramount for librarians Even more important is the need for librarians to assume sole responsibility for designing and integrating information literacy and critical thinking skills throughout the curriculum Craver analyzes studies that show students inability to discern fact from fiction ads from news and information bias in electronic information sources and recommends six actions that school librarians take to ensure that they become active participants in their future rather than its victims
