Bronx Primitive:

Bronx Primitive Kate Simon, 1982 As an account of growing up female it is a fit companion piece to Mary McCarthy's classic *Memoirs of a Catholic Girlhood* Le Anne Schreiber *The New York Times* [Bronx Primitive](#) Kate Simon, 1989 The classic unforgettable memoir of a young girl's coming of age *Bronx Primitive* recalls the vitality of an immigrant neighborhood through the unsentimental eyes of a child With an unerring eye for detail and an iridescent clear-eyed prose Kate Simon captures the particular world of her childhood as well as the universal uncertainties and triumphs of a young girl on the threshold of womanhood [Bronx Primitive](#) Simon Spb Trinity Press International, 1999-12-01 **Modern American Memoirs** Annie Dillard, 2009-10-13 Pulitzer Prize winner Annie Dillard and Cort Conley present a rich collection of excerpts drawn from the memoirs of 35 extraordinary 20th century American writers including contributions by such diverse writers as Margaret Mead Malcolm X Maxine Hong Kingston Loren Eiseley and Zora Neale Hurston The selections are chosen for their value as examples of the art of biography as well as for their superb writing *Poetic Resurrection* Sina A. Nitzsche, 2020-09-03 While many Americans dismissed the borough of The Bronx in the late 1970s through the belief that The Bronx is burning this study challenges that assumption As the first explicit study on The Bronx in American popular culture this book shows how a wide variety of cultural representations engaged in a complex dialogue on its past present and future Sina A Nitzsche argues that popular culture ushered in the poetic resurrection of The Bronx an artistic and imaginative rebirth that preceded promoted and facilitated the spatial revival of the borough [From Girl to Woman](#) Christy Rishoi, 2012-02-01 *From Girl to Woman* examines the coming of age narratives of a diverse group of American women writers including Annie Dillard Zora Neale Hurston Maxine Hong Kingston and Mary McCarthy and explores the crucial role of such narratives in the development of American feminism Women have long known that identity is complex and contradictory but in the twentieth century their coming of age narratives finally voice this knowledge Addressing a variety of themes awakening sexuality the body's metamorphosis in puberty consciousness of difference from males and the socialization into feminine gender roles these narratives reject the heroine's narrative ending in romance allowing American women writers to create alternative subjectivities by rejecting the notion that identity is ever fixed While activists have succeeded in winning legal battles that have changed the legal status of women these narratives perform the cultural work of exposing the painful contradictions faced by women as they come of age **Writing Our Lives** Steven Joel Rubin, 1991 Twenty eight selections from the writings of some of the best known American Jewish novelists dramatists critics and historians span the social and cultural history of American Jews in the twentieth century Often joyous occasionally tragic they provide a fascinating record from immigration to assimilation from life in the ghetto to the current movement by many to recapture their Jewish identity At once personal and historical the selections are poignant and moving testimonies to the perseverance of the American Jewish people **The End of American Childhood** Paula S. Fass, 2017-11-07 How American childhood and parenting have

changed from the nation's founding to the present *The End of American Childhood* takes a sweeping look at the history of American childhood and parenting from the nation's founding to the present day Renowned historian Paula Fass shows how since the beginning of the American republic independence self definition and individual success have informed Americans attitudes toward children But as parents today hover over every detail of their children's lives are the qualities that once made American childhood special still desired or possible Placing the experiences of children and parents against the backdrop of social political and cultural shifts Fass challenges Americans to reconnect with the beliefs that set the American understanding of childhood apart from the rest of the world Fass examines how freer relationships between American children and parents transformed the national culture altered generational relationships among immigrants helped create a new science of child development and promoted a revolution in modern schooling She looks at the childhoods of icons including Margaret Mead and Ulysses S Grant who as an eleven year old was in charge of his father's fields and explored his rural Ohio countryside Fass also features less well known children like ten year old Rose Cohen who worked in the drudgery of nineteenth century factories Bringing readers into the present Fass argues that current American conditions and policies have made adolescence socially irrelevant and altered children's road to maturity while parental oversight threatens children's competence and initiative Showing how American parenting has been firmly linked to historical changes *The End of American Childhood* considers what implications this might hold for the nation's future

Reading Rooms Susan Allen Toth, John Coughlan, 1991 On cover America's foremost writers celebrate our public libraries with stories memoirs essays and poems *A to Z of American Women Writers* Carol Kort, 2014-05-14 Presents a biographical dictionary profiling important women authors including birth and death dates accomplishments and bibliography of each author's work **Small Worlds** Elliott West, Paula Petrik, 1992 Thirteen essays treat children from the pre Civil War generation to 1950 as active influential participants in society The essays are organized into four topics cultural and regional variation toys and play family life and the ways evolving memories of childhood shape how adults think of themselves **Time** Briton Hadden, Henry R.
