Wallerstein, 1991-07-31 The Doctorate in Mental Health D M H program was an experiment inspired by the proposal and advocacy beginning in the 1950s of the eminent psychoanalyst Lawrence Kubie of a more rational and efficient pattern of training for dynamically oriented psychotherapists drawing on the relevant aspects of medical psychiatric and psychological training Though the inspiration for the program remained centered in psychoanalytic dynamic psychiatry social science and biological components of the curriculum were conceived as preparing the D M H to practice in community mental health settings and most controversially to prescribe and administer psychotropic drugs autonomously Unfortunately legislative licensure of the new degree was never attained and the aspiration to create a new profession failed Why did it fail This book and its myriad of contributors attempt to grapple with this question and combine to produce a detailed examination of the rise and demise of a new profession and its infrastructure Contents Section I The Historical Evolution Rise and Fall of the D M H Program Section II The Personal Evolution Creation of a New Professional Identity Section III The World Surrounding the Program Section IV Analysis and Overview **Miscellanea Musicologica** ,1977 *Social Casework* ,1974 Seeking the Compassionate Life Carl Goldberg, Virginia Crespo, 2004-06-30 Morality is a subject most ignored and little understood by modern psychological investigation Why a person acts honorably or heinously is one of the most puzzling and least answered questions regarding human behavior Here the authors posit that despite the fact that hatred and arrogance continually battle compassion and decency as humanity s driving force people continue to develop altruism empathy and concern for others Goldberg and Crespo demonstrate seven factors crucial to achieving a compassionate life Goldberg and Crespo take us inside their treatment rooms through history across cultures and into their own personal worlds at large to meet clients and acquaintances including a would be rapist a virtuous stalker an adulterous minister and a young boy with little more than a matchbook and some pride to call his own Together the stories of these clients and historical figures including Nazis at Nuremberg reflect a vital theme Virtuous behavior should not be a mystery Morality is a subject most ignored and little

understood by modern psychological investigation Why a person acts honorably or heinously is one of the most puzzling and least answered questions regarding human behavior The authors demonstrate that although within every human breast hatred and arrogance battle compassion and decency as a driving force people do indeed develop altruism empathy and concern for others Goldberg and Crespo outline seven crucial factors in the achievement of a compassionate life This book addresses two audiences First it questions modern psychological scientists who have ignored the importance of compassion virtue and morality focusing instead on contrived experimental situations rather than pursuing investigations in as part of the actual world in which we live Yet it is also written for all people concerned with the moral crisis in contemporary society and all people seeking personal and social solutions to deal with this crisis *Minutes of the Vienna Psychoanalytic Society* Wiener Psychoanalytische Vereinigung,1974 **Blame it on Freud** Frances Kovacs Heussenstamm,1993 Minutes of the Vienna Psychoanalytic Society: 1910-1911 Wiener Psychoanalytische Vereinigung,1962 Translation of Protokolle der Wiener Psychoanalytischen Vereinigung *The Israel Annals of Psychiatry and Related Disciplines* ,1972 Prosocial Motives, Emotions, and Behavior Mario Mikulincer,Phillip R. Shaver,2010 This book is a comprehensive examination of the influences of genes personality past social experiences social and cultural identities and contextual factors on human prosocial behavior The American Journal of Psychiatry ,1999 *The Publishers Weekly* ,1972 It's All The Rage Wendy Kaminer,1996-04-23 From our decrying of the abuse excuse to our cheers of Free the Juice our reactions to violent crime fluctuate wildly Expanding on her well known ideas about self help and the American psyche Wendy Kaminer shows us how pop psychology and religious fervor vie with law and rationality in our courtrooms and in our minds She doesn t offer up any easy solutions rather with her trademark epigrammatic brilliance she gives us an alarming picture of the emotional needs and cultural forces behind our righteous proclamations about crime and punishment
