*Comparative Methods in Sociology* Ivan Vallier, 2023-11-10 The essays in this volume are intended to help social scientists do better comparative research and thereby to improve our possibilities for creating more satisfactory explanations or theories These broad aims are advanced throughout the book in several ways 1 by an identification and assessment of the methodological strategies of exceptionally important comparativists past and present 2 by an explication and refinement of logics of procedure that are central to many types of comparative research 3 by a presentation of new research models that link or bridge heretofore separate lines of comparative inquiry and 4 by the definition of methodological criteria by which theories and conceptual frameworks can be more fruitfully related to and qualified by comparative studies Specific problems such as comparability causal inference conceptualization measurement and sampling are addressed in various sections of particular essays From the Preface This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1971

[Property Valuation](#) D. Scarrett, 2002-09-26 An introductory first year text on property valuation with a clear, well-defined structure based around the five valuation methods. [Comparative Methods in Law, Humanities and Social Sciences](#) Adams, Maurice, Van Hoecke, Mark, 2021-11-19 This cutting edge book facilitates debate amongst scholars in law, humanities, and social sciences where comparative methodology is far less well anchored in most areas compared to other research methods. It posits that these are disciplines in which comparative research is not simply a bonus but is of the essence. *Global Justice Reform* Hiram E. Chodosh, 2005-01-01 *Global Justice Reform* critiques and rethinks two neglected subjects: the nature of comparison in the field of comparative law and the struggles of national judicial systems to meet global rule of law objectives. Hiram Chodosh offers a candid look at the surprisingly underdeveloped methodology of comparative legal studies and provides a creative conceptual framework for defining and understanding the whys, whats, and hows of comparison. Additionally, Chodosh demonstrates how theories of comparative law translate into practice using contemporary global justice reform initiatives as a case study with a particular focus on Indonesia and India. Chodosh highlights the gap between the critical role of judicial institutions and their poor performance for example, political interference, corruption, backlog, and delay, discussing why reform is so elusive and demonstrating the unavoidable and essential role of comparison in reform proposals. Throughout the book, Chodosh identifies several sources of comparative misunderstanding that impede successful reforms and identifies the many predicaments reformers face, detailing a wide variety of designs, methods, and social dilemmas. In response to these seemingly insurmountable challenges, Chodosh advances some novel conceptual strategies, first by drawing on a body of non-legal scholarship on self-regulating emergent systems and then by identifying a series of anti-dilemma strategies that draw upon insights about the nature of comparison. **A Comparative Method Apparatus and Standards for Measurement of Thermal Conductivity** V. V. Mirkovich, 1965 **Comparison** Leonardo Morlino, 2018-01-15 Comparison is an essential research method in political science. This book helps students to understand comparison as a scientific instrument to grasp its necessity and its effective purpose for research. For that reason, it replies to three simple questions: why compare, what to compare, and how to compare. The introduction distinguishes itself by considering not only the comparative tradition but also by taking methodological innovations of the last two decades into account. *Research Methods in Politics and International Relations* Christopher Lamont, Mieczyslaw P.
