Excerpt from New Complete Geography We have decided to teach these features objectively on a plan that has been highly commended For instance Instead of devoting two or three pages of text to the origin of mountains A subject in which the average child takes no interest we give in the general presentation of the physical geography of the earth four pictures of mountains and under each picture give a brief description of the origin and character of the formation The same course has been followed with reference to other physical features The pupil will read these descriptions because of his interest in the

picture and will remember them for life because of their association with it About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
