As twentieth-century city planners invested in new transportation systems to deal with urban growth, they ensured that the automobile rather than mass transit would dominate transportation. Combining an exploration of planning documents, sociological studies, and popular culture, Paul Fotsch shows how our urban infrastructure developed and how it has shaped American culture ever since. *Watching the Traffic Go* By emphasizes the narratives underlying our perceptions of innovations in transportation by looking at the stories we have built around these innovations. Fotsch finds such stories in the General Motors Futurama exhibit at the 1939 World's Fair, debates in *Munsey's* magazine, films such as *Double Indemnity*, and even in footage of the O. J. Simpson chase along Los Angeles freeways. Juxtaposed with contemporaneous critiques by Lewis Mumford, Theodor Adorno, and Max Horkheimer, Fotsch argues that these narratives celebrated new technologies that fostered stability for business and the white middle class. At the same time, transportation became another system of excluding women and the poor, especially African Americans, by isolating them in homes and urban ghettos. A timely interdisciplinary analysis, *Watching the Traffic Go* By exposes the ugly side of transportation politics through the seldom-used lens of popular culture.

The Ethnic Restaurateur Krishnendu Ray, 2016-02-11. Academic discussions of ethnic food have tended to focus on the attitudes of consumers rather than the creators and producers. In this ground-breaking new book, Krishnendu Ray reverses this trend by exploring the culinary world from the perspective of the ethnic restaurateur. Focusing on New York City, he examines the lived experience, work memories, and aspirations of immigrants working in the food industry. He shows how migrants become established in new places, creating a taste of home and playing a key role in influencing food cultures as a result of transactions between producers, consumers, and commentators. Based on extensive interviews with immigrant restaurateurs and students, chefs, and alumni at the Culinary Institute of America, ethnographic observation at immigrant eateries and haute institutional kitchens, as well as historical sources such as the US census, newspaper coverage of restaurants, reviews, menus, recipes, and guidebooks, Ray reveals changing tastes in a major American city between the late 19th and through the 20th century. Written by one of the most outstanding scholars in the field, *The Ethnic Restaurateur* is an essential read for students and academics in food studies, culinary arts, sociology, urban studies, and indeed anyone interested in popular culture and cooking in the United States.
