

A complete guide to Knitting for Beginners

You will need

- Yarn
- Knitting needles

Step 1

The first stitch you need to make is a slip knot.

Step 1

Twirl a slip knot (the smallest circle you can).

Step 2

Next, bring a loop with the yarn attached to the knot into the top of the loop and pull.

Step 3

Slide the yarn attached to the knot over the top of the loop.

Step 4

Continually add up the same piece of yarn and pull it through the next.

Step 5

Once knitting onto the piece of yarn and with your other hand pulling yarn into the loop and in place as you knit.

Step 6

Slide the slip knot onto the needle ready, then pull the yarn underneath the slip to replace the knot.

Step 1

Two knitting stitches

Here are two basic stitches to get you started.

This is just one method.

Step 1

Insert the tip of the right needle into the top of the left needle. As you do so, catch the unknitted yarn from the left. You have the right needle. The left hand goes over the right.

Step 2

Repeat steps 1) and you have the desired number of stitches, with your needles now facing opposite directions to the left needle.

Step 1

Two knitting stitches

continued from

Step 1

Insert the tip of the left needle up and over the top of the right needle. As you do so, catch the unknitted yarn from the right. You have the right needle. This will bring your left hand over.

That's it!

You have now completed your first row of stitches.

Knitting using one needle makes a tubular garment. This is a reversible pattern so it looks almost identical on both sides.

Step 1

Two knitting stitches

continued from

Step 1

With needles from the row the first time you knit, you will pull up the left needle.

That's it!

The first row completed your first row and you can now knit the rest of the row and the rest of your piece working each.
