including Jane Goodall Shirley McGreal Birute Mary Galdikas Richard D Ryder and Roger Fouts to challenge and change exploitative practices As concern for animals and their welfare grows this volume will be an indispensable aid to general readers activists scholars and students interested in developing a keener awareness of cruelty to animals and considering avenues for reform Also included is a special foreword by Archbishop Desmond Tutu urging readers to seek justice and protection for all creatures humans and animals alike

EMRATM Intelligence Robert Falconer-Taylor, Peter Neville, Val Strong, 2017-03-13 Since 2004 in the UK the Centre of Applied Animal Ethology COAPE has been developing EMRATM a revolutionary and highly successful way of treating behaviour problems in companion animals EMRATM is based on emotional assessment of the individual dog or cat rather than the quasi diagnoses of behaviour problems of old that have often lead to standardised and unnecessarily complicated approaches to treatment EMRATM is a practical easy to use yet powerful approach that assists the therapist in identifying key emotional aspects of a problem behaviour and the factors reinforcing it and defines how best to approach precise treatment It is a kind and effective holistic method that enables the therapist to develop bespoke treatment plans for all common pet behaviour problems and helps unravel and treat more complex and bizarre challenges far more effectively Simply by placing how the pet feels at the heart of the treatment the EMRATM approach can take the pet owner and behaviourist on a journey that is always enlightening and often fun and surprising on the pathway to improved behaviour and relationships

Behavior of Dogs and Cats Gary M. Landsberg, 1998

The Behaviour of the Domestic Cat John W. S. Bradshaw, 1992 The behavior of domesticated animals is a subject of great interest to pet owners as well as to students of animal behavior and veterinary medicine Indeed it is now attracting greater attention among research workers and being taught increasingly to students of zoology and veterinary science This book presents a readable overview of the behavior of the domestic cat adopting both a mechanistic and functional approach but making full reference to the scientific literature The first half of the book is concerned mainly with physiological developmental and psychological aspects while the second half looks at social behavior relationships with humans and welfare The final chapter written by well known behavior therapist Peter Neville considers problem behaviors This book will appeal both to students and research workers but will also interest members of the general public seeking a scientific but jargon free approach to this fascinating subject
