drew these patients there Who were they what happened to them where are they now Through their own eyes Mithers recreates the Center s astonishing rise and fall through the 1970s that lost decade when psychotherapy became an essential tool to finding yourself What she has achieved here is a stunning look at the search for inner fulfillment that wreaked havoc on many of the young people of the Sixties as they tried to grow up Therapy Gone Mad is a gripping portrait of a generation looking for itself and of our obsession as a society with the cult of psychotherapy BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Handbook of Eclectic Psychotherapy** John C.
