Crafts Design:

Arts & Crafts Design William H Varnum, 1995-08 Originally published in 1916 when the Arts Crafts movement was in its heyday this is a virtual textbook of materials color techniques and designs Arts Crafts Design is a practical guide to the creation of high quality high style furnishings through the industrial arts In this relativistic age in which de gustilrie non disputandum est it is undisputed that each person has their own sense of taste it is refreshing to look back to the early twentieth century when at least a few people were certain that there are universal rules for good art and also that they had themselves mastered these precepts and could pass them on to a society that loved commonly held values William H Varnum was one of those people He offers here a textbook that will if followed allow students to directly apply well recognized principles of design to specific materials and problems No situation esthetics here In fact he followed these principles in designing the logos representing his tools and ratio system on the cover of his book The publisher of this new edition has added a useful foreword and substituted the title Arts and Crafts Design for the original 1916 Industrial Arts Design an appropriate modification since the term industrial suggests factory production whereas Varnum referred to objects that today we call Craftsman Rookwood pottery Stickley furniture Jarvie candlesticks etc A delightful touch is that Varnum included pictures of these objects alongside the principles by which he believed they were designed Varnum s book offers an enlightening if somewhat technical insight into thinking about design before World War I There is no doubt that the Arts and Crafts period during which the principles of simple beauty married so neatly with function can be better understood and appreciated today through Varnum s perceptions Robert Winter **Arts & Crafts Homes and the Revival** ,2008 Devoted to the Arts and Crafts Movement past and present this new magazine celebrates the revival of quality and craftsmanship Each issue is a portfolio of the best work in new construction restoration and interpretive design presented through intelligent writing and beautiful photographs Offering hundreds of contemporary resources it showcases the work not only of past masters but also of those whose livelihoods are made in creating well crafted homes and furnishings today The emphasis is on today s revival in architecture furniture and artisanry informed by international Arts Crafts and the early 20th century movement in America William Morris through the Bungalow era Includes historic houses essays and news design details how to articles gardens and landscape kitchens and baths Lots of expert advice and perspective for those building renovating or furnishing a home in the Arts Crafts spirit From the publisher of Old House Interiors magazine and the Design Center Sourcebook artsandcraftshomes.com *Stenciling the Arts & Crafts Home* Amy A.
