Playing the Changes Craig Hansen Werner, 1994 In *Playing the Changes* Craig Hansen Werner presents a polyrhythmic approach to the continuities and discontinuities of the American literary tradition He focuses on the relationship between two superficially distinct traditions European post modernism and African American culture in both literary and musical forms A primary

contribution of *Playing the Changes* is its exploration of different phrasings of issues important to highly conscious African American artists from the late nineteenth century Charles Chesnutt's *The Conjure Woman* to the 1990s Toni Morrison's *Jazz*. A final sequence highlights the centrality of black music to African American writing, arguing that recognizing blues, gospel, and jazz as theoretically suggestive cultural practices rather than specific musical forms points to what is most distinctive in twentieth-century African American writing: its ability to subvert attempts to limit its engagement with psychological, historical, political, or aesthetic realities.
