CICS Application, Development, and Programming Arlene J. Wipfler,1987

Modernizing Applications with IBM CICS Russell Bonner,Sophie Green,Ezriel Gross,Jim Harrison,Debra Scharfstein,Will Yates,IBM Redbooks,2020-12-30 IBM CICS is a mixed language application server that runs on IBM Z Over the 50 years since CICS was introduced in 1969 enterprises have used the qualities of service QoSs that CICS provides to allow them to create high throughput and secure transactional applications that have powered their business As the IT landscape has evolved so has CICS to allow these applications to integrate with new platforms and still provide value to the rest of the business Because of this capability many businesses still rely on CICS to power their core applications This IBM Redpaper publication focuses on modernizing these CICS applications allowing them to integrate with cloud native applications This modernization can be achieved either by constructing application programming interfaces APIs that allow new cloud native applications to connect to your existing assets rewriting parts of your application in newer languages and hosting them back on CICS or by using CICS capabilities to extend your applications to provide new capabilities and functions The paper takes a traditional example application and shows you how it works Then the paper extends the example rewrites portions of its functions and enables its APIs It also explains how CICS applications can use continuous integration CI and continuous delivery CD to deliver test and deploy code into CICS easily and with quality

Application Development for IBM CICS Web Services O'Grady James,Ian Burnett,Jim Harrison,San Yong Liu,Xue Yong Zhang,IBM Redbooks,2015-01-27 This IBM Redbooks publication focuses on developing Web service applications in IBM CICS It takes the broad view of developing and modernizing CICS applications for XML Web services SOAP and SOA support and lays out a reference architecture for developing these kinds of applications We start by discussing Web services in general then review how CICS implements Web services We offer an overview of different development approaches bottom up top down and meet in the middle We then look at how you would go about exposing a CICS application as a Web service provider again looking at the different approaches The book then steps through the process of creating a CICS Web service requester We follow this by looking at CICS application aggregation including 3270 applications with IBM Rational Application Developer for IBM System z and how to implement CICS Web Services using CICS Cloud technology The first part is concluded with hints and tips to help you when implementing this technology Part two of this publication provides performance figures for a basic Web service We investigate some common variables and examine their effects on the performance of CICS as both a requester and provider of Web services
