## What is the fabric of lace?

The production of lace fabric is an industry which has existed for hundreds of years. In its purest shape, lace fabric is a gorgeous and delicate fabric. It features a distinctive web-like open construction, which is made of thread or yarn. The most commonly used yarns in white [lace fabrics](#) are silk, cotton, and linen. They are braided, looped and then twisted in order to create lace with its distinct characteristics.

Synthetic yarns are frequently used, especially in modern lace production. In the most typical applications, they have been dyed in white which imparts the fabric a feeling of innocence and purity.
