An Introduction to Philosophy Edgar Sheffield Brightman, 1940

Big Ideas for Curious Minds: An Introduction to Philosophy The School of Life, 2018-09-20 Children are in many ways born philosophers Without prompting they ask some of the largest questions about time mortality happiness and the meaning of it all Yet too often this inborn curiosity is not developed and with age the questions fall away This is a book designed to harness children's spontaneous philosophical instinct and to develop it through introductions to some of the most vibrant and essential philosophical ideas of history The book takes us to meet leading figures of philosophy from around the world and from all eras and shows us how their ideas continue to matter The book functions as an ideal introduction to philosophy as well as a charming way to open up conversations between adults and children about the biggest questions we all face What people are saying about Big Ideas for Curious Minds This is an absolute must have for ALL children It is absolutely fantastic and helps children understand a number of their daily struggles In fact I take that previous comment back this is an absolute must for EVERYONE I have had read it from cover to cover and as a 40 year old woman I have honestly learnt something new

Freddie's Mummy UK This is a beautifully produced book published by the School of Life founded by well known philosopher Alain de Botton It is a very accessible starting point for exploring philosophy and how philosophical ideas can be applied to everyday life in fact it is very explicit about this

Ewingel I can't stop reading and talking about this book with others It is easy to follow and great for an introduction to philosophy for kids Well written great illustrations ideas and clever how it relates the philosophers ideas to the lives and issues that children have 5 stars Thomas Leesa

The book itself is genius with an introduction to leading figures of philosophy from around the world from all eras Alongside that there are chapters teaching our children crucial lessons about life about love and about loss Topics such as Why you feel lonely Politeness matters People are unhappy not mean and The mind body problem offer invaluable insights into philosophy in a way that our children can really get on board with

When the book arrived and I had a quick glance through it my immediate reaction was that it was far too old for my children And yet when I took the time to start reading and to admire the beautiful illustrations I found myself still sat there an hour later realising that this was exactly the kind of book I want each of my children to read as they grow

Five Little Doves The focus of these chapters are incredibly meaningful some of my favourites include People are unhappy not mean Learn to say what's on your mind Good things are unexpectedly hard and Politeness matters The book has been written by the fantastic School of Life and it is suggested for curious minds aged 9 I think most adults would also find these ideas incredibly helpful to reflect on who doesn't need reminding that when

someone is angry maybe it's not you who is responsible Louise Treherne *Role Models* Although Big Ideas for Curious Minds is aimed at children I have got a lot from it too and I wish I had read it myself as a child This book has taught me and LP new ways of thinking and new ways of being What the Redhead Said

**Philosophy Goes to the Movies** Christopher Falzon, 2002 This is a new kind of introduction to philosophy that uses the movies to explore philosophical ideas Ideal for the beginner this book guides the student through philosophy using lively cinematic examples including Total Recall *Twenty Questions* G. Lee Bowie, Meredith W. Michaels, Robert C. Solomon, 1996 Bringing philosophy into conversation with other intellectual traditions and activities *Twenty Questions* introduces beginning philosophy students to classic philosophical texts both old and new The essays chosen in the fourth edition reflect a full range of human perspectives and voices so that students may benefit from philosophical reflections of thinkers outside the discipline *Classic Questions and Contemporary Film* Dean A. Kowalski, 2015-08-24 Featuring significant revisions and updates *Classic Questions and Contemporary Film* An Introduction to Philosophy 2nd Edition uses popular movies as a highly accessible framework for introducing key philosophical concepts Explores 28 films with 18 new to this edition including Eternal Sunshine of the Spotless Mind Hotel Rwanda V for Vendetta and Memento Discusses numerous philosophical issues not covered in the first edition including a new chapter covering issues of personal identity the meaningfulness of life and death and existentialism Offers a rich pedagogical framework comprised of key classic readings chapter learning outcomes jargon free argument analysis critical thinking and trivia questions a glossary of terms and textboxes with notes on the movies discussed Revised to be even more accessible to beginning philosophers
