**African Language Structures** William E. Welmers, Wm. E. Welmers, William Everett Welmers, 1974-01-01 Retells the Cheyenne legend in which a girl and her seven chosen brothers become the Big Dipper **African Language Structures** Wm. E. Welmers, 2024-06-04 Wm E Welmers surveys a wide range of structural characteristics both phonological and grammatical of the languages of sub Saharan Africa Drawing on thirty years of experience in the analysis and teaching of African languages and on work done on some seventy spoken languages Welmers has organized the volume by linguistic topic Thus there are extensive discussions of tonal systems in languages from all over sub Saharan Africa of noun classes and concord in the Bantu and other Niger Kordofanian languages and of the varieties of verbal constructions found in representative languages African Language Structures emphasizes the organization of language data rather than the technicalities of theoretical linguistics The material is presented in such a way that students working on the analysis of other languages can be guided in their procedures Welmers suggests not only what types of structures may be expected but also how they may be discovered and described This work is unique in the depth of its linguistic insight over the entire spectrum of language structure and in the breadth of its language coverage This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 **African Language Structures [By] Wm. E. Welmers** William Everett Welmers, 1974 *African Languages* Bernd Heine, Derek Nurse, 2000-08-03 This book is an introduction to African languages and linguistics covering typology structure and sociolinguistics The twelve chapters are written by a team of fifteen eminent Africanists and their topics include the four major language groupings Niger Congo Nilo Saharan Afroasiatic and Khoisan the core areas of modern theoretical linguistics phonology morphology syntax typology sociolinguistics comparative linguistics and language history and society Basic concepts and terminology are explained for undergraduates and non specialist readers but each chapter also provides an overview of the state of the art in its field and as such will be referred to also by more advanced students and general linguists The book brings this range of material together in accessible form for anyone wishing to learn more about this challenging and fascinating field **Structure and Relationship of African Languages** Alice Werner, 1930 [An Introduction to African Languages](#) G. Tucker Childs, 2003-12-19 This book introduces beginning students and non specialists to the diversity and richness of African languages In addition to providing a solid background to the study of African languages the book presents linguistic phenomena not found in European languages A goal of this book is to stimulate interest in African languages and address the question What makes African languages so fascinating The orientation adopted throughout the book is a descriptive one which seeks to characterize African languages in a relatively succinct and neutral

manner and to make the facts accessible to a wide variety of readers The author s lengthy acquaintance with the continent and field experiences in western eastern and southern Africa allow for both a broad perspective and considerable depth in selected areas The original examples are often the author s own but also come from other sources and languages not often referenced in the literature This text also includes a set of sound files illustrating the phenomena under discussion be they the clicks of Khoisan talking drums or the ideophones words like English lickety split found almost everywhere which will make this book a valuable resource for teacher and student alike
