The Box Social and Other Stories James Reaney, 1996 The Box Social Other Stories gathers together nine of James Reaney's short fictions written in the 40s and early 50s and never previously collected in book form The collection takes its title from a short piece the author originally published in the University College Undergrad and which provoked a firestorm of eight hundred angry letters from subscribers when it was republished nationally in the New Liberty in the late 40s It also thwarted the young author's designs on the editorship of the Undergrad because of his clear moral unsuitability for such an august position This is doubtful because the Undergrad eventually came to be edited thirty years later by PQL publisher Tim Inkster The Box Social is remarkable not only that it introduced the theme of date rape to Canadian literature some thirty years before the phrase was coined but also that it is told from Sylvia's point of view and yet again that it ends with one of the quietest lines of literary vitriol imaginable I hated you so much she said softly If Alice Munro has put the sexually awakening female under glass in Lives of Girls and Women then The Box Social could just as easily have been titled Lives of Boys and Men In The Bully the brutality of what passes for etiquette in secondary school is contrasted with the simpler life of the farm personified in Noreen who drops grain in the shape of letters to feed her chickens so that when the hens ate the grain they were forced to spell out Noreen's initials or to form a cross and circle There were just enough hens to make this rather an interesting game Sometimes I know Noreen spelled out whole sentences in this way a letter or two each night and I often wondered to whom she was writing up in the sky The Bully was included in The New Oxford Book of Canadian Short Stories edited by Margaret Atwood and Robert Weaver The young Margaret Atwood first encountered The Bully as an undergraduate She read the story oddly enough in an anthology edited by Robert Weaver and the experience was apparently seminal to her own development as a writer of fiction

Paintings and the Past Ivan Gaskell, 2019-05-13 This book is an exploration of how art specifically paintings in the European manner can be mobilized to make knowledge claims about the past No type of human made tangible thing makes more complex and bewildering demands in this respect than paintings Ivan Gaskell argues that the search for pictorial meaning in paintings yields limited results and should be replaced by attempts to define the point of such things which is cumulative and ever subject to change He shows that while it is not possible to define what art is other than being an open kind it is possible to define what a painting is as a species of drawing regardless of whether that painting is an artwork or not at any given time The book demonstrates that things can be artworks on some occasions but not necessarily on others though it is easier for a thing to acquire artwork status than to lose it That is the movement of a thing into and out of the artworld is not symmetrical All such considerations are properly matters not of ontology what is and what is not an artwork but of use that is how a thing might or might not function as an artwork under any given circumstances These considerations necessarily affect the approach to paintings that at any given time might be able to function as an artwork or might not be able to function as such Only by taking these factors into account can anyone make viable knowledge about the past This lively discussion ranges over innumerable examples of paintings from Rembrandt to Rothko as well as plenty of far less familiar material from contemporary Catholic devotional works to the Chinese avant garde Its aim is to enhance philosophical acuity in respect of the analysis of paintings and to increase their amenability to philosophically satisfying historical use *Paintings and the Past* is a must read for all advanced students and scholars concerned with philosophy of art aesthetics historical method and art history
