**Mary Foote Henderson**

## Cooking With Grease:

**Do Glaciers Listen?** Julie Cruikshank, 2010-10-01 Do Glaciers Listen explores the conflicting depictions of glaciers to show how natural and cultural histories are objectively entangled in the Mount Saint Elias ranges This rugged area where Alaska British Columbia and the Yukon Territory now meet underwent significant geophysical change in the late eighteenth and nineteenth centuries which coincided with dramatic social upheaval resulting from European exploration and increased travel and trade among Aboriginal peoples European visitors brought with them varying conceptions of nature as sublime as spiritual or as a resource for human progress They saw glaciers as inanimate subject to empirical investigation and measurement Aboriginal oral histories conversely described glaciers as sentient animate and quick to respond to human behaviour In each case however the experiences and ideas surrounding glaciers were incorporated into interpretations of social relations Focusing on these contrasting views during the late stages of the Little Ice Age 1550 1900 Cruikshank demonstrates how local knowledge is produced rather than discovered through colonial encounters and how it often conjoins social and biophysical processes She then traces how the divergent views weave through contemporary debates about cultural meanings as well as current discussions about protected areas parks and the new World Heritage site Readers interested in anthropology and Native and northern studies will find this a fascinating read and a rich addition to circumpolar literature

**Fierce Angels** Sheri Parks, 2013-04-01 The Strong Black Woman has been a part of mainstream culture for centuries as a myth a goddess a positive role model a stereotype and as a burden In Fierce Angels Sheri Parks explores the concept of the Strong Black Woman its influence on people of all races and the ways in which black women respond to and are affected by this image Originating in the ancient Sacred Dark Feminine as a nurturing and fierce goddess the Strong Black Woman can be found in myths from every continent Slaves and slave owners alike brought the legend to America where the spiritual icon evolved into the secular Strong Black Woman with examples ranging from the slave Mammy to the poet Maya Angelou She continues to appear in popular culture in television and movies such as Law and Order and The Help and as an inspirational symbol associated with the dispossessed in political movements in particular from Africa The book presents the stories of historical and living black women who embody the role and puts the icon in its historical and evolutionary context presenting a balanced account of its negative and positive impact on black culture This new paperback edition has been revised from the hardcover edition to include two new chapters that expand on the transformative Dark Feminine in alchemy and Western literature and a final chapter on the political uses and further potential of the Sacred Dark Feminine in social justice movements in the United States and abroad *Cooking with Grease*

Donna Brazile, 2012-09-04 *Cooking with Grease* is a powerful behind the scenes memoir of the life and times of a tenacious political organizer and the first African American woman to head a major presidential campaign. Donna Brazile fought her first political fight at age nine campaigning successfully for a city council candidate who promised a playground in her neighborhood. The day after Martin Luther King Jr was assassinated she committed her heart and her future to political and social activism. By the 2000 presidential election Brazile had become a major player in American political history and she remains one of the most outspoken and forceful political activists of our day. Donna grew up one of nine children in a working poor family in New Orleans a place where talking politics comes as naturally as stirring a pot of seafood gumbo and where the two often go hand in hand. Growing up Donna learned how to cook from watching her mother Jean stir the pots in their family kitchen. She inherited her love of reading and politics from her grandmother Frances. Her brothers Teddy, Man and Chet worked as foot soldiers in her early business schemes and voter registration efforts. *Cooking with Grease* follows Donna's rise to greater and greater political and personal accomplishments lobbying for student financial aid, organizing demonstrations to make Martin Luther King Jr's birthday a national holiday and working on the Jesse Jackson, Dick Gephardt, Michael Dukakis and Bill Clinton presidential campaigns. But each new career success came with its own kind of heartache especially in her greatest challenge leading Al Gore's 2000 campaign making her the first African American to lead a major presidential campaign. *Cooking with Grease* is an intimate account of Donna's thirty years in politics. Her stories of the leaders and activists who have helped shape America's future are both inspiring and memorable. Donna's witty style and innovative political strategies have garnered her the respect and admiration of colleagues and adversaries alike. She is as comfortable trading quips with J.C. Watts as she is with her Democratic colleagues. Her story is as warm and nourishing as a bowl of Brazile family gumbo.

**Fire Prevention for Secondary Schools** University of Southern California. Curriculum

Laboratory, Claude C. Crawford, 1952

**Cooking in America, 1840-1945** Alice L. McLean, 2006-08-30 This cookbook covers the years 1840 through 1945 a time during which American cookery underwent a full scale revolution. Gas and electric stoves replaced hearth cookery. Milk products came from commercial dairy farms rather than the family cow. Daily meals were no longer bound by seasons and regions as canned, bottled and eventually frozen products flooded the market and trains began to transport produce and meat from one end of the country to the other. During two World Wars and the Great Depression women entered the work force in unprecedented numbers and household servants abandoned low paying domestic jobs to work in factories. As a result of these monumental changes American home cooking became irrevocably simplified and cookery skills geared more toward juggling time to comb grocery store shelves for the best and most economical products than toward butchering and preserving an entire animal carcass or pickling fruits and vegetables. This cookbook reflects these changes with each of the three chapters capturing the home cooking that typified the era. The first chapter covers the pre industrial period 1840 to 1875 during this time home cooks knew how to broil, roast, grill, fry and boil.

on an open hearth flame and its embers without getting severely injured They also handled whole sheep carcasses made gelatin from boiled pigs trotters grew their own yeast and prepared their own preserves The second chapter covers 1876 through 1910 a time when rapid urbanization transformed the United States from an agrarian society into an industrial giant giving rise to food corporations such as Armour Swift Campbell s Heinz and Pillsbury The mass production and mass marketing of commercial foods began to transform home cooking meat could be purchased from a local butcher or grocery store and commercial gelatin became widely available While many cooks still made their own pickles and preserves commercial varieties multiplied From 1910 to 1945 the period covered by Chapter 3 the home cook became a full fledged consumer and the national food supply became standardized to a large extent As the industrialization of the American food supply progressed commercially produced breads pastries sauces pickles and preserves began to take over kitchen cupboards and undermine the home cooks ability to produce their own meals from scratch The recipes have been culled from some of the most popular commercial and community cookbooks of the nineteenth and early twentieth centuries Taken together the more than 300 recipes reflect the major cookbook trends of the era Suggested menus are provided for replicating entire meals
