**Secular Utilitarianism** James E. Crimmins, 1990 Jeremy Bentham was an ardent secularist convinced that society could be sustained without the support of religious institutions or beliefs This is writ large in the commonly neglected books on religion he wrote and published during the last twenty five years of his life However his earliest writings on the subject date from the 1770s when as a young man he first embarked on his calling as a legal theorist and social reformer From that time on religion was never far from the centre of his thoughts In *Secular Utilitarianism* James Crimmins illustrates the nature extent and depth of Jeremy Bentham s concern with religion from his Oxford days of first doubts to the middle years of quiet unbelief and finally the zealous atheism and secularism of his later life Dr Crimmins provides an interpretation of Bentham s thought in which his religious views hitherto of little interest to Bentham scholars are shown to be integral on the one hand intimately associated with the metaphysical epistemological and psychological principles which gave shape to his system as a whole and on the other central to the development of his entirely secular view of society

**Africa's Social and Religious Quest** Randeé Ijatuyi-Morphé, 2014-01-30 This well crafted book probes the key dimensions of Africa s existential predicament It constitutes an intellectual response to a gnawing African situation the starting point for grasping Africa s social and religious quest Beyond split explanations of external versus internal factors e g colonization slavery vs leadership cultural values this study accounts more comprehensively for emergent issues shaping this situation The situation reflects a gamut of problems

in traditional African religion and material culture which hitherto defines African communality politics and destinies vis vis the cosmos and nature Thus African religion and communities each with its own attendant values do not operate by critical engagement with larger issues of society and civilization especially those shaped by the advent of post modernity Rather they operate via adaptation The communal drive for natural and social harmony inevitably produces a preservationist view of culture leaving things as they are This study takes an integrative approach to religion society and civilization eschews dichotomies and broadly defines and re signifies life and wholeness as a true end of Africans quest today *Choice* ,1980
