Conversational Style Deborah Tannen, 2005-07-21 This revised edition of Deborah Tannen's first discourse analysis book *Conversational Style* first published in 1984 presents an approach to analyzing conversation that later became the hallmark and foundation of her extensive body of work in discourse analysis including the monograph *Talking Voices* as well as her well-known popular books *You Just Don't Understand*, *That's Not What I Meant*, and *Talking from 9 to 5* among others. Carefully examining the discourse of six speakers over the course of a two and a half hour Thanksgiving dinner conversation Tannen analyzes the features that make up the speakers' conversational styles and in particular how aspects of what she calls a high involvement style have a positive effect when used with others who share the style but a negative effect with those whose styles differ. This revised edition includes a new preface and an afterword in which Tannen discusses the book's place in the evolution of her work. *Conversational Style* is written in an accessible and non-technical style that should appeal to scholars and students of discourse analysis in fields like linguistics, anthropology, communication, sociology, and psychology as well as general readers fascinated by Tannen's popular work. This book is an ideal text for use in introductory classes in linguistics and discourse analysis.

That's Not What I Meant! Deborah Tannen, 2013-04-23 The bestselling linguistics professor examines how we communicate with each other and how you can maintain an effective conversation. At home, on the job, in a personal relationship, it's often not what you say but how you say it that counts. Deborah Tannen revolutionized our thinking about relationships between women and men in her #1 bestseller *You Just Don't Understand*. In *That's Not What I Meant*, the internationally renowned sociolinguist and expert on communication demonstrates how our conversational signals—voice level, pitch, and intonation, rhythm, and timing—even the simple turns of phrase we choose—are powerful factors in the success or failure of any relationship. Regional speech characteristics, ethnic and class backgrounds, age, and individual personality all contribute to diverse conversational styles that can lead to frustration.
