Critics Credentials:

The Critic's Credentials Stanley Edgar Hyman, 1978 **TV Critics and Popular Culture** Paul Rixon, 2011-11-30 Ever since the first scheduled television broadcasts began in the 1930s newspapers and magazines took quickly to reviewing this revolutionary new medium The task of television criticism in the public domain initially fell to radio critics and journalists but the 1950s saw the rise of the dedicated TV critic These critics including Peter Black Philip Pursor and Clive James played an important part in shaping the public discourse about television This new book explores the evolution of television criticism in Britain exploring different types of TV critics and reviewers the form of their work and evaluates their importance in our understanding of the way television has become such an integral part of modern culture It also asks whether with the birth of new technologies is the TV critic a dying breed This is an important contribution to the fields of Journalism and Television Studies Cultural Studies and contemporary History

Professing Criticism John Guillory, 2022-12-30 A sociological history of literary study both as a discipline and as a profession As the humanities in higher education struggle with a labor crisis and with declining enrollments the travails of literary study are especially profound No scholar has analyzed the discipline's contradictions as authoritatively as John Guillory In this much anticipated new book Guillory shows how the study of literature has been organized both historically and in the modern era both before and after its professionalization The traces of this volatile history he reveals have solidified into permanent features of the university Literary study continues to be troubled by the relation between discipline and profession both in its ambivalence about the literary object and in its anxious embrace of a professionalism that betrays the discipline's relation to its amateur precursor criticism In a series of timely essays *Professing Criticism* offers an incisive explanation for the perennial churn in literary study the constant revolutionizing of its methods and objects and the permanent crisis of its professional identification It closes with a robust outline of five key rationales for literary study offering a credible account of the aims of the discipline and a reminder to the professoriate of what they already do and often do well

Literary Milieux David Womersley, Richard Anthony McCabe, 2008 The essays range from Shakespeare and early modern literature to Wordsworth They evince scrupulous care over the handling of evidence an interdisciplinary impulse yoked always to a prizing of the literary particularly the poetic a willingness to embrace an ambitious argument where it can be supported a humaneness of temper particularly in polemic Latent within them all is a wrestling with the central problem of text and context **BOOK JACKET**

Monsters and Angels Seymour Bernstein, 2002 This book by internationally known writer composer teacher and lecturer Seymour Bernstein expounds upon topics touched on in his bestseller *With Your Own Two Hands* HL50482589 Bernstein teaches readers the truth about performing careers offering insights and advice on both personal and musical issues In Part 2 he discusses the importance of music education covering both monster and angel teachers managers and critics Bernstein believes that everyone has a right to develop whatever talent they have for self fulfillment and self development if not necessarily for a

career **Restoring Nature** , Using a recent controversy over ecological restoration efforts in Chicago as a touchstone for discussion Restoring Nature explores the difficult questions that arise during the planning and implementation of restoration projects in urban and wildland settings **Talking Drama** Judith Roof,2009-10-02 The essays in Talking Drama ask what the relation is between drama and its critics In so far as we conceive of drama and theatre as arising from and providing some sense of social ritual and comment drama is itself a critical genre showing up the foibles and problems of human existence as well as the general hubris and errors of society Plays both constitute criticism of society of ideas of other plays and deploy such self critical gambits as plays within plays characters who watch other characters characters feigning roles and personalities and even the overt inclusion of characters who are critics Plays thus comment both on themselves and on the art of theatre generally At the same time drama implies other kinds of critics in the guise of the audience reviewers and those who might participate in its ideas Just as plays produce the seeds of their own critique so they also spur critique of their aesthetics the artistry of their performance and the ideas and conflicts they illustrate Critics who review play performances are as much an intrinsic part of theatrical events as the audience and the plays themselves *The National Dental Critic* ,1906 **American Television on British Screens** P. Rixon,2006-05-02 This work explores how American programmes have become an important part of British television culture since the 1950 s moving from schedule fillers to cornerstones and must see attractions The book analyses popular and industrial discourses the changing roles of such programmes on British screens and interviews with key British broadcasters **National capital dental critic** ,1906
