Ruin Their Crops on the Ground Andrea Freeman, 2024-07-16 Winner of the Los Angeles Times Book Prize in History Winner of the James Beard Media Award in Food Issues and Advocacy The first and definitive history of the use of food in United States law and politics as a weapon of conquest and control a Fast Food Nation for the Black Lives Matter era In 1779 to subjugate Indigenous nations George Washington ordered his troops to ruin their crops now in the ground and prevent their planting more Destroying harvests is just one way that the United States has used food as a political tool Trying to prevent enslaved people from rising up enslavers restricted their consumption providing only enough to fuel labor Since the Great Depression school lunches have served as dumping grounds for unwanted agricultural surpluses From frybread to government cheese **Ruin Their Crops on the Ground** draws on over fifteen years of research to argue that U S food law and policy have created and maintained racial and social inequality In an epic sweeping account Andrea Freeman who pioneered the term food oppression moves from colonization to slavery to the Americanization of immigrant food culture to the commodities supplied to Native reservations to milk as a symbol of white supremacy She traces the long standing alliance between the government and food industries that have produced gaping racial health disparities and she shows how these practices continue to this day through the marketing of unhealthy goods that target marginalized communities causing diabetes high blood pressure and premature death **Ruin Their Crops on the Ground** is a groundbreaking addition to the history and politics of food It will permanently upend the notion that we freely and equally choose what we put on our plates
